

Municipal Aid Application 2020
MA-2020-Improvements to Hance Road and Coone-00700
Type of Improvement: 1

Infrastructure

☐ Bikeway

Purpose

Primary project purpose is for constructing new bikeways (e.g. bike lanes, bike paths, bike compatible roadways).

☐ Bridge Preservation

Primary project purpose is for improving the condition of bridge infrastructure (e.g. new deck, rehabilitation, replacement).

☐ Mobility

Primary project purpose is to enhance mobility and reduce congestion (e.g. adding lanes, signal optimization).

☐ Pedestrian Safety

Primary project purpose is to enhance pedestrian safety (e.g. new sidewalks, new crosswalks, traffic calming, pedestrian overpass).

☐ Quality of Life

Primary project purpose is for beautification, environmental mitigation, economic development or historic preservation.

☒ Roadway Preservation

Primary project purpose is for improving the condition of roadway infrastructure (e.g. resurfacing, reconstruction, drainage).

☐ Roadway Safety

Primary project purpose is to enhance vehicular safety (e.g. guide rail, signing, warning devices, striping).

Municipal Aid Application 2020

MA-2020-Improvements to Hance Road and Coone-00700

Project Name: Improvements to Hance Road and Cooney Terrace - Phase II

Note: If you have multiple locations for the same type of improvement and scope of work, you may enter "various" for the project limits, [download the excel spreadsheet here](#), fill it out and attach it below.

Project Title: Improvements to Hance Road and
Cooney Terrace - Phase II

From: Lewis Point Road

To: Grange Avenue

Project Distance (Miles): 0.4

Municipal Aid Application 2020

Project Location

County to filter by: Monmouth County

Municipalities: Fair Haven Borough

Municipal Aid Application 2020
MA-2020-Improvements to Hance Road and Coone-00700
Scope Of Work

Please provide description for Scope of Work:

Hance Road and Cooney Terrace are located on the west side of the Borough of Fair Haven , in the vicinity of the Navesink River. The proposed limit of work will allow the Borough to resurface the remaining portion of Hance Road, from Lewis Point Road to Cooney Terrace and Cooney Terrace, from Hance Road to Grange Avenue. Both roadways serve as a main thoroughfare to the residential neighborhood, access to the Navesink River, and is within close proximity to the Borough's downtown.

The existing pavement for Hance Road and Cooney Terrace is in poor condition . There are several cracks, utility trenches, and severely deteriorated areas. During heavy rain events, ponding occurs along the gutter line. There are no sidewalks or ADA compliant improvements. Existing asphalt curbing has deteriorated and as a result, the edge of the roadway is eroding in several areas.

Since school bussing is not available, children are required to walk, bike, or get dropped off. Sidewalks will be added for sections of Hance Road and Cooney Terrace, as appropriate in order to improve pedestrian safety and circulation.

Proposed improvements include the following:

- Milling of existing pavement and the installation of 2 thick bituminous concrete surface course.
- Reconstruction of full depth pavement, as necessary.
- Installation of ADA curb ramps with detectable warning.
- Installation of concrete curb and sidewalk.
- Drainage work.

Last year, the Borough completed Improvements to Hance Road, from River Road to Lewis Point Road, which involved roadway resurfacing, curbing, sidewalk, and drainage improvements, all of which was funded locally. The Borough is finalizing design for improvements to the Navesink River waterfront at the terminus of Hance Road and Grange Avenue. These improvements have been partially funded by Monmouth County Municipal Open Space and will compliment this proposed project.

The improvements to Hance Road and Cooney Terrace - Phase II will be consistent with the design standards for this section of Fair Haven. These improvements are a continuation of the infrastructure upgrading efforts of the Borough. In addition, it will allow the Borough to continue with the Complete Streets initiative.

Roadway Data Sheet

Project Classification

Please check the one most applicable:

- ☒ Resurfacing
- ☐ Reconstruction
- ☐ Surface Treatment
- ☐ Drainage
- ☐ Widening
- ☐ New Roadway

Existing Road Conditions. Please enter minimum widths (where applicable).

Current ADT: 1200

Truck Traffic over 5 Tons (%): 5

Legal Speed Limit (mph): 25

Are there any commuter bus stops within the project limit? ☐ Yes ☒ No
Please identify the approximate location in the box below.

Right of Way Width (feet): 40

Pavement Width (feet): 21

Shoulder Width (feet): 0

Curbing: ☒ One Side ☐ Both Sides ☐ Neither

Sidewalk: ☐ One Side ☐ Both Sides ☒ Neither

Existing Minimum Width (feet):

Parking Restrictions: None

Proposed Improvements. Please enter minimum widths (if applicable).

Right of Way Width (feet): 40

Roadway Data Sheet

Pavement Width (feet): 26

Shoulder Width (feet): 0

Curbing: () One Side (☒) Both Sides () Neither

Sidewalk: (☒) One Side () Both Sides () Neither

Proposed Minimum Width (feet): 4

Parking Restrictions: None

Does the project serve any of the public facilities listed below within the project limit? (☒) Yes () No

Public School(K-12)
Parks/Recreational Facilities

Does the project involve any of the safety improvements listed below? If so, please check (☒) Yes () No
all applicable and add a narrative of proposed safety improvements in the box below.

Safety improvements should not be replacement in kind, it must enhance/improve existing.

Drainage Improvements (increase capacity/new drainage)

The proposed project will improve the drainage at the intersection of Hance Road and Cooney Terrace. In addition, roadside erosion will be eliminated. New pipe and catch basins will be installed, where appropriate.
