LETTER OF REVIEW

Megan E. Miller
26 Woosamonsa Road
Pennington, NJ 08534

RE: Block 49, Lot 16 (26 Woosamonsa Road)

Dear Property Owner(s),

This office has reviewed the documentation submitted with your application for letter of review. Based on the information provided, the following was noted:

Well Water – A well water analysis report dated 2-5-2019 from LECO Laboratories indicated the well was compliant with all New Jersey Safe Drinking Water Act parameters at the time of analysis.

Septic System – A septic system inspection report dated 2-6-2019 from Hercules Septic & Sewer Service, LLC. indicated the system was operating satisfactorily at the time of inspection, but repairs were required for deteriorated/settled components. Permit number 2019013 was issued on 2-22-2019 authorizing the needed repairs. The work has since been completed, inspected and approved.

NOTE: The septic tank on the property is outfitted with an effluent filter that requires regular maintenance to assure proper function. This reusable filter prevents solids from exiting the septic tank and damaging the disposal field. As the filter does its job, flow is gradually reduced through the outlet of the tank. Failure to maintain the filter may result in backup of sewage into the home. It is **very** important to perform this maintenance, which can be done by the homeowner or by a septic maintenance company.

This office hereby releases a letter of review for the above referenced property.

Your attention to this matter is appreciated. You may contact this office at 609-737-0120 to discuss this matter. Our office hours are Monday through Friday, 8:30-4:30.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. B. English', written in a cursive style.

Robert B. English
