| <b>Bought a bag of Lyric Peanut Pieces which had what appeared to be rat droppings in it. Called manufacture, also called Shoprite who assured her product would be taken off shelf. Bought two additional bags which also had either rat or mouse droppings.</b> |          |

Nature of Complaint

### Complaint Investigation Narratives

|                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <u>09/29/2016</u><br>Narrative Date     | 9-19-16 13:45 hours Arrived at location. Spoke with the manager. Had difficulty locating the product until it was realized that this was an animal feed product, located in the pet food isle. Several bags were checked for evidence of contamination. No evidence of adulteration was observed. The display had recently been restocked, so it is possible the complainants product came from a different lot. Departed site 14:30 hours. |
| <u>Larry Newman</u><br>Narrative Author | Complaint not verified-no cause for further action.<br>NO CAUSE FOR FURTHER ACTION AT THIS TIME.                                                                                                                                                                                                                                                                                                                                            |

☒ Final Entry: NO CAUSE FOR FURTHER ACTION AT THIS TIME.
