RISK-BASED INSPECTION REPORT

Fail Notes Summary

Code	Text
7. Handwashing facilities provided with warm water; soap and acceptable hand-drying method.	
6.7(i)	Hand wash sink at the waitress/ waiter station lacks soap. COS Provided at this time.
17. COLD HOLDING: PHFs maintained at "Refrigeration Temperatures" (41°F)	
3.5(f)2	Cut fruit container at the bar has several problems: the cut fruits are at 60 degrees F at this time where they must be held at 41 degrees f or below after cutting. Temperature of the food needs to be managed better. The lid is open when it should be maintained closed. The container uses small bins in which to place cut fruit and some are missing so the cold from the ice below will escape more easily and the ice below is mostly water. Ice is added at this time and the cover is closed. COS Recommend training to ensure temperature control of these foods.
40. Materials, construction, repair, design, capacity, location, installation, maintenance.	
4.5(a)	The pipes connected to the drains at the Bar 3 compartment sink are taller than the flood rim of the sinks. Water cannot turn over and the sink is likely to overflow due to improper set up. Manager is in the process of correcting during this inspection and completed 2 of the 3 sink drain pipe replacements. Complete repair is in progress. COS
42. In-use utensils properly stored.	
3.3(k)	- Ice cream scooping dipper well found not in use. Ice cream scoop is found soiled and in a small empty pan at room temperature. This violation was reviewed for correction upon a previous inspection to prevent microbial growth. COS dipper well is placed back into service at this time. - Ice scoop is found completely buried in the ice of the ice mahine instead of storing the scoop in a clean location. Scoop handle should never come in contact with ice. Scoop is removed at this time. COS
46. Plumbing system properly installed; safe and in good repair; no potential backflow or backsiphonage conditions.	
5.2(a)	Faucet at hand wash sink in the rear of the kitchen is loose, not secured in place.
50. Adequate ventilation; lighting; designated areas used.	
6.2(i)	One dry storage light cover is missing.
51. Premises maintained free of litter, unnecessary articles, cleaning and maintenance equipment properly stored; and garbage and refuse properly maintained.	
5.5(k)	Exterior waste container has a broken lid (right side).
52. All required signs (handwashing, inspection placard, etc) provided and conspicuously posted.	
6.6(j)	No hand wash sign posted at the bar. Issued for posting. COS.
