Complaint Investigation Narratives

Arrived on site at approximately 1300 hours. Met with the owner John Descatore at this time in order to discuss the complaint. Establishment was witnessed to be very clean at this time and no evidence of an insect or rodent issue was perceived. Western Pest Services is contracted to be on site once a month for pest control situations. The sink referenced by the complainant was also in proper working condition. An explanation from the owner indicated that it was possible the complainant attempted to turn the valve for the hand wash sink in the bathroom rather than depressing it for running water. No other unrelated issues were noticed while on site. This establishment was inspected on 9/13/18 by and inspector from this Department in which a Satisfactory rating was issued.
