Complaint Investigation Narratives

Arrived on site at approximately 1400 hours. Met with the manager and owner at this time in order to discuss this complaint. A full inspection of the establishment was conducted at this time. Please refer to this inspection for more details on this facility. As for the issues mentioned by the complainant, no evidence of insects or rodents could be found at this time. Outside premises of the facility were also well kept with no potential for harborage of pests witnessed. Hand wash sinks inside of the kitchen, food prep areas, and bathrooms were fully supplied with soap and paper towels along with adequate hot water. However some of the hand wash sinks at the bar were absent of a soap dispenser and were therefore subsequently replaced. No further issues were witnessed while on site.
