When I was mayor the FD was always troubled that the efforts to put out the Dietz and Watson fire was frustrated due to the charge in the solar panels on the roof of that facility. Addressing those concerns with the local FD may hold weight with both the Twp and BPU.

As head of our county's department of health you lead the charge for vaccines during the worst of times. Maybe people need to be reminded of that and of how many lives you saved doing that

I asked Harriette to spread that message
