Hello!

A Happy belated Thanksgiving to you! Yes, I can provide that information. In February we plan to host an evening for all of the local childcare centers to come together to discuss options since we are such a small community. I spoke with Amanda over at Head Start and the partnership is not an option right now since we are a walking town and the center is just too far and transportation is too much. Maybe in the future, but not right now. All of this was included with my application in the summer.

Let me know if you have any questions.

Hi Megan,

I hope all is well! I am following up regarding your projected enrollment submission. LEAs that apply and receive Preschool Education Aid (PEA) funding are required to demonstrate due diligence in establishing partnerships with private child care centers and Head Start programs that are willing and able to meet the preschool standards, to provide its preschool program through a mixed delivery model. Can you specify the districts plans or outreach to contract with a private child care center or Head Start program?
