11. Narrative				
On the above date and approximate time, patrol was dispatched to 549 Mansfield VLG for a CO detector activation. When I arrived on location I met with the owner, Jonathan Vega and his family, who were all outside. He advised that his family was sleeping when they heard a beeping noise coming from the Co detector. He advised everyone felt fine, but he just wanted his new born baby evaluated by the squad. The squad and fire department arrived on location and evaluated the scene. The fire department advised that the CO detector needed new batteries and notified a supervisor about the problem. The squad advised Jonathan that he should bring Lucas to the hospital for precautionary measures. Once everyone cleared, patrol then cleared the scene.
