ESA Approved - 9/8/15 - TM

Proposal for adding 30 Body Vision Cameras (BVC's) to current DES operations - Includes 7 a docking station area with an 8-port switch, power strip and patch cables. Note: 2 year warranty (3 all total) included as an optional item.

Includes installation/setup by L3/MVI SIS Personnel with training - 1 day.

Note: Installation of CAT-5e cabling from docking station area to server switch is "to be determined".

Note: Assumption made that the 30 BVC's will be individually assigned with 5-6 in use per shift. Docking station area set up to incorporate up to 7 BVC's downloading at shift change time. 7 additional docking stations included for use with the remaining 23 docking stations as "take home" equipment chargers.

NOTE: with estimated usage of 5-6 per shift with 2-12 hour shifts in the HD mode will generate a storage expansion requirement of 3TB's. With current "estimated" storage usage with 4 vehicle per shift and 2 interview rooms (2.1TB's) the total storage minimum requirement would be 4.8TB's. We recommend expanding to 10TB's.

NOTE: storage expansion is not included in this quote.
