Subject: Re: invoice

It is a new billing system which will not allow for the breakdown as I always provided I could provide a separate email providing more detail

Mr. Braslow,
We received the current invoice but the description only shows legal services rendered and the date but does not list what was done. Is there anyway to get invoices with more description? I feel we are not the only company that would like a detailed account of what services we are being billed for before processing payments. Thanks, Dawn
