To: livcomments@livingstonnj.org

Dear Council Members,

I was on the meeting and had to leave for evening services. Nope to jump on afterwards.

I see it as a real privilege to live and lead in Livingston. We have seen a number of members of our congregation downsize and move out of the immediate area of our synagogue. At the same time there is a great desire for new younger members to move to the same area. Of course, affordable housing is always an issue as not everyone can afford a 1-2 million dollar home.

Our congregation looks to continue our great service to our members and to the greater community. In fact, we sponsored lunch today for the vaccination center at Sears.

We are looking to groom and grow the next generation of great Livingston residents who will make our home their home. I am confident that this will be a most positive gain for us all.

I thank you for all you do and for your leadership.

Respectfully,

Rabbi Klibanoff.

Rabbi E. Samuel Klibanoff

[LivComment:134] Ordinance 7-2021

1 message

Jill Ricardo [REDACTED]

Mon, Apr 26, 2021 at 7:23 PM

To: Livcomments@livingstonnj.org

Hello, my name is Jill Ricardo & I live at 15 Dickinson Lane. I have concerns on the recent proposal for 136-140 Passaic Avenue for building 72 units for a R-5L Residence Overlay.

My concern is that it is a small, dead end street that will not be able to support additional residents living there. There is no on-street parking. I doubt 2 cars could travel on the street at the same time in different directions.

In addition, there is the potential of significant traffic build-up on Passaic with no where for the cars to maneuver should there be an accident or traffic stallage from the light at Northfield\Passaic.

Has there been a traffic study to assess this?

Thank you in advance for discussing my concerns.

1. I lived here at Dickinson Ln for 20 years. Dickinson lane and the surrounding areas used to feel like the country or a Rural community and now it's turning into an Urban setting. In the past 5 years 75% of my neighbors have moved out. That turnover rate is because of the gradual shift in our community from RURAL TO URBAN. If you build these housing units so close to our property I guarantee us locals will continue to move out in droves.
2. Infrastructure can not handle the the dramatic increase in population. We already have bottleneck traffic due to the housing developments at Sun Valley on N Passaic ave that stretch all the way to the bridge as well as a MASSIVE newly built Sports Stadium next to the tennis courts and recreational center next door. The roads are just not wide enough to handle the influx in traffic. The roads aren't properly maintained to begin with and the pot holes and ditches are bad now, just wait until several hundred more cars travel N Passaic and Hobart Gap/Passaic everyday, the gridlock and bottleneck and potholes will be a nightmare
3. We call ourselves the "Garden State" yet the Sun Valley was built on "protected wet lands" and now you are going to replace a FARM and farm land on Volker Ln with massive multi housing units. That is the opposite of going green and we will no longer be a Rural community.
4. These housing units will also Decrease the property value immensely for the surrounding neighborhood
5. I vote no to the housing units

Subject: [LivComment:132] Covid vaccinations
To: <livcomments@livingstonnj.org>

Is it possible for the health department to provide statistics on the number of Livingston residents who have been vaccinated?

I am truly blown away by the number of NJ residents who refuse to get the Covid vaccination because they have a confidence issue with the vaccine and also take lightly the severity and long lasting effects of the illness.

I would like the TC to take initiative and start a campaign which provides accurate statistics regarding side effects from the vaccine vs lasting effects from Covid. What the risk is of dying from Covid without the vaccine vs with the vaccine.

This information needs to be sent to each household and printed in the Trib. People have to stop relying on what they read on Facebook and the media.

TC members should also make encouraging reverse 911 calls to try to persuade residents to get vaccinated. There is too much misinformation out there.

They need to share all of the available vaccination sites in town and the process involved.

The county has been doing a great job, but we need to do more.

People don't trust the media. We need to get our local docs to endorse the science and reassure people that getting vaccinated is the right choice.

Let's get a campaign started and keep our town safe!

Township Council Public Comment Responses

[FN1] Ought to have the Township CFO take a fresh accounting of all of the bid-free business that we provide on the several regional service exchanges. Might be possible to reframe the workload to take in that work locally and develop a stronger sense of balance with the funds that we pour in and take out of the exchanges. Upon reflection, the several localities could similarly be looking at their total tax expenditure to the County and the amount drawn out of as salaries and services back to the community, and develop a long-term regression to sensible pro-rata means. Of course, a similar exercise could also be used by the SEA and NJBPU to assess cash flows on and off the PJM Interconnection. Be surprised at how quickly we could invert our accounting methodology to realize a value-generating asset just by playing in the margins.

Township Council Public Comment Responses

Anyway, that is all. Thank you, Mr. Mayor, for leading the adult conversation in this Livingston Community. Let us all agree that by making the investments that responsibly need to be made in our community, and by leading other local and County communities to do the same, we should quickly come to know a broad and sustainable regional sense of Liberty and Prosperity. And won't it be something to have folks turning heads and asking, "*Wait, what's going on in Livingston?*"

How may I help?

Very truly yours,

Justin Escher Alpert

LIVINGSTON

robust community engagement. BTW, guess the next step with respect to the Mall property is to take the recommendations of the Blue Ribbon Committee and poll them on LTown, or something? Or does the Mall property finally get its own long-overdue public hearing? iv) Lastly, with respect to property tax appeals, this honorable Council is clearly caught in a pickle that *we knew* was coming. If it were not statutorily directed, we might refer racketeering charges to the OAG. The fact is that our taxation system is so *fundamentally broken* that the dais noticeably shudders in Fear at the mere suggestion that we publicly vet the ASI proprietary data and methodology model. Welcome opportunity to take a smarter approach. We have a tremendous amount of expenditure that flows straight-out of the community. When we meet with the Department Heads, let's get salary org tables that identify totals of salaries for employees who live in the community and employees who live outside of the community. In a healthy, attractive, affordable, growing Livingston Community where we are cultivating our own leadership internally, it should be easy to move those numbers by 4% per year in our own real accountable favor... where we are more-directly responsible for our own government, *blowing away* the illusive 2% savings that the Council perceives in our energy aggregation program. Can double-account for the cost of gasoline in commuting and triple account for richer community values as we return to locally-accountable fiduciary banking. With respect to our taxes to the County, let's account for the value that gets returned to Livingston as a percent of our pro-rata share of the County jobs. Begin to develop really healthy regional cash flow dynamics and reverse control over the County mechanism. If the Township CFO can coordinate with the Schools Business Administrator to run a similar Human Resources due diligence, we can get a firm base in planning for robust return value as we move to more of a Community Schools model under our Assemblywoman's leadership, strengthening one of the core assets of this community (the local hospital is a *whole 'nuther* issue). With a robust, sustainable, and growing local banking float, we could drop our tax rates precipitously in a regional economic model that measures real cash flow returns. Perhaps we may have our arbitrage counsel make a presentation to the Council and the community this spring. See what our options are.

7. The Township Attorney. The Township Attorney cannot afford to lead with Fear. If the community feels like he is overly-conflicted by other engagements and he loses the trust of the community, sadly so would this honorable Council. The Township Attorney has given *very poor* counsel with respect to meeting protocols. First of all, Robert's Rules of Order are a wonderfully-inventive substrate for a parliamentarian-style body to engage in really robust conversation. Respectfully, over Zoom the one-party dais is more of a *politburo*. Note that when a speaking constituent violated decorum on Monday night, you, Mr. Mayor, appropriately cut him off. That power is intrinsic to your position. But to cut public engagement to agenda items to just four minutes and make it absolute is to yield your inherent power to pedantic regulation. The Township Attorney *was just wrong* to advise that everyone must be afforded the same amount of time and no more. *That's not a thing*. Again 'fear of litigation' raises its head. When we are in a live meeting and someone is richly engaging the dais and the community comes to life in conversation... *that's lightning in a bottle*. If we quell that community conversation in rote compliance with the abbreviated time that the Township Attorney would ascribe, it would be a fundamental misunderstanding of *why* the general public you have been elected to serve insists on public meetings to begin with. The opportunity to extend productive conversation is inherent to the Mayorship. In fact, *it's an obligation*. The Township Attorney is just wrong and needs to be told by you, Mr. Mayor, of such. As well, at Tuesday Night's hearing, the Township Attorney overstepped his authority in proclaiming that there would be no reserving of time for second chances to speak. That is *your* prerogative and decision to make, Mr. Mayor. Would think that the forum would have been a welcome opportunity for really robust community dialogue. We should want that, yes?

* * * * *

that they live in and will inherit from us. If we are too *bourgeois* to do the work, let's develop the labor force in the County where we actually have control and may creatively develop offsets and returns. The County Executive had built that lovely new Voc-Tech school up in Caldwell. Welcome opportunity to leverage satellite programming in our own community schools. For any of the apartments that we permit, if we allow ownership to remain outside the community in perpetuity, once the capital cost is recovered REITs will be able to draw infinite returns out of the community in perpetuity. *This is a fundamental banking flaw.* When white folks fled The Brick City in 1967, they took the land title with them and it never returned. In five-and-a-half decades of single-party Democratic governance, nobody ever made a move to fix the core underlying socioeconomic problem. As we see the same thing happening in our community in real time, let's not make the same mistakes all over again and expect a different result. A stable and adequate primary home in a vibrant, healthy, attractive, affordable, sustainable, growing, entrepreneurial community has infinite intrinsic value to the owner who actually lives in it. For everything else, as always, *you've gotta follow the cash flows.* With the NJDSC in Absolute Power, now is the time to actually act for the accountable and equitable benefit of The People of The Garden State. If the Governor is going to move to restructure State banking during the remainder of his term, would be wise for a community like Livingston to leverage our Assemblyman's position as Chair of the Financial Services Committee in restructuring and planning for healthy long-term growth (where investing in our sidewalks and municipal swimming pools might make a whole lot of common sense). Back in the Venture Capital world, we used to talk about "smart money" as coming from folks in the relevant space who had skin in the game. We can retain a team to develop smart money investment-grade financial instruments that draw from the vast paper wealth of The People of This Livingston Community for robust reinvestment with high-yield returns secured by the appreciated value of real property in a vibrant healthy growing Livingston Community, especially if we are prepared to fully-realize our wealth interests on a current basis for expenditure back into the healthy local commerce and culture that we develop. Really not difficult, but the Council has to *choose* to move in this sort of a direction. Can lead the whole County to a regional prosperity. Should look forward to making the case to the electorate who would need to approve the intelligent borrowing. Get excited about the future again.

5. Rezoning and Overlays. Every time the Council rezones or creates an overlay, it is obligated to account for the appreciated value of real property. When we open our churches and non-profits (that do not pay taxes) to developers and the appreciated value of real property flows right out of the community, it becomes obvious that this community is facing a moral crisis that must be rectified.

6. Closed Sessions. The one-party Council conducts way too much of its business in closed session. After the debacle of the Mall Blue Ribbon Committee resigning *en masse* due to potential conflicts of interest, it only underscores the need for transparency to the public. i) Given the nature of two Councilmen being conflicted with respect to the YMCA, we're going to need a strict accounting of the cash flows associated with all sides of these transactions. The three non-conflicted members of the Council would be *supremely* wise to retain independent counsel. ii) If we are going to redevelop the area by Shoprite, let's intelligently develop both sides of Livingston Avenue *at the same time* for the accountable benefit of a vibrant, healthy, growing Livingston Community. There are noticeably a number of houses on both sides of the street with For-Sale signs. If this community had fiduciary banking with long-term interests, we would be snapping-up those houses and wheeling and dealing with other local residents. This honorable Council would be supremely wise to hold a tight grip on lots 60 to 64 until we can gain control of (or a peaceable understanding with) lot 59. This all takes real work and skilled, focused, full-time local leadership with a long-term real stake in the community. iii) Just as we did for community engagement with cannabis policy, we should hold a public forum for what to do with our community properties along Route 10. After the self-storage unit debacle, this honorable Council should welcome the more-

look at the things that we associate with healthy local commerce generally, we have the potential to turn both rents and wages back inwards locally, and conceivably earn a 100% internal rate of return on cash flows to the community. In that respect, if 1,000 Livingston households each spend \$1,000 per month on cannabis products, that is \$1 million that could be turned back into the community as rents and wages if we structured locally-accountable banking right (which we should do anyway, even if the cannabis opportunity were not so-richly presenting itself).

C. The Township Attorney's Presentation. It was disconcerting to see the Township Attorney lead with an abject sense of Fear itself. "Scary." "Unknown." The fact is that the Cannabis Regulatory Commission is looking for skilled and educated communities like Livingston to intelligently address smarter approaches to regulated commerce. We should engage the CRC directly if there are legitimate concerns. There is a broad bipartisan network of next-generation Garden State politicians who will be working through issues together, weaving the sociopolitical fabric for decades of responsible good governance. Opting out is not only unresponsive, it is irresponsible. When the Township Attorney turns to to speak about the upsides, he merely discusses potential tax revenue, which is a mistake. The broader social implications of legalization are the upside. The taxes would practically be de minimis to the community (might pay to keep a pool open or maintain some sidewalks or something). The real opportunity is to think about cash flows associated with healthy local commerce and culture generally. As well, welcome opportunity to rethink *tax policy itself* to better-support the needs of People in a healthy growing Livingston Community with vibrant local commerce and culture. But if this honorable Council is going to approve cannabis commerce just for the tax revenue alone, *then take a pass*, because there are more-important economic fundamentals for us to address *first*, and we should be prepared to do so. With the right mindset, would be much easier to get there leveraging the community engagement around cannabis policy and by modeling the opportunity for healthy regulated local commerce generally. By the Township Attorney's presentation, he would seemingly have us take a passive approach. As leaders we are better than that.

2. Essex County Updates. The woman coming out from the County to tell us the County goings-ons continues to be just lovely, however, it seems like something we could read off of a flyer or a website or something. We would be infinitely better-off paying a member of the Township Manager's staff who lives locally to actually attend County Commission meetings as our trusted proxy for creative engagement and have her report back to the Council and the community with deeper political intelligence. Lead the western Essex County communities to responsibly exercise control over the County mechanism.

3. The Open Bid Process. When a Councilman comes in and says that he has met a woman from outside of the community who could do a certain service and if we structured it right it might not even need to go to out to bid, then *that is a clear sign that it should responsibly go to bid*. Let's know the signs when we see them. Besides, grant writing seems like something we could engage a team of paid-FBLA interns from the high school to do with the right professional guidance between Town Hall and a work-study program developed by Foxcroft. [FN1]

4. The 200-Page Fair Share Housing Plan. Was surprised to learn that the Planning Board, under duress of a South Jersey NGO, had carved up the development of this community for the benefit of outside interests. We need to take responsible Control of this right now. We are not under any obligation to approve any specific development. We apparently are under obligation to introduce ordinances, but other than FSHC squeezing \$25,000 out of our community the FSHC agreement is largely illusory. Look, we all agree that a healthy community should be growing. Pick one or two of the most attractive and sensible projects, and let's back-peddle on the others as we build up the fundamentals. Our State Senator can work with the Senate President to restructure labor locals. We can put our own young adults to work at real living wages building the community

Glenn Turtletaub <gturtletaub@livingstonnj.org>

[LivComment:131] Reflections on This Week's Council Meetings: i) Smart Approaches to Cannabis Policy, ii) Essex County Updates, iii) The Open Bid Process, iv) The 200-Page Fair Share Housing Plan, v) Rezoning and Overlays, vi) Closed Sessions, and vii) The Township Attorney.

D.O. Jasey" <aswjasey@njleg.org>, West Essex Tribune <tribuneeditorial@verizon.net>, Danielle Santola <dsantola@tapinto.net>

Dear Mr. Mayor:

Thank you so much for your leadership with respect to this past Tuesday's forum on cannabis policy. The prior two administrations had spoken on their respective reorganization days about addressing the issue, but your administration finally broke the ice and it was refreshing. As well, the Council should be having *more* of these types of community engagement meetings generally. For example, could do another hearing about whether the community wants a self-storage unit constructed down by the river. You know, perhaps a member of the community might stand up and suggest putting a local brewery back there, or something, and plant a seed for redevelopment of healthy local culture and arts and night life in our warehouse district.

Anyway, please welcome a few thoughts about this week's meetings:

1. Smart Approaches to Cannabis Policy.

A. Legalization. Prohibition failed because nobody followed the unjust law. Legalization was publicly debated for many years across the State and voters moved overwhelmingly to secure the Blessings of Liberty on behalf of responsible members of the Cannabis Community, who are now a constitutionally-protected class. We should not reinvent the wheel here on whether legalization is a smarter approach.

B. Healthy Local Commerce and Culture. As we consider what healthy local commerce and culture should look like, consider how we best extend equal protection of the law with responsible members of the craft brewing community. This is how we develop and support a responsible local culture. While the Councilmen made very clear that they had been to cannabis dispensaries before, your constituents were provided very little of their impressions. Would have been nice to understand whether any of the Councilmen identify themselves as a responsible member of the cannabis-consuming community and what their personal thoughts are. There was an obvious shortcoming in the meeting format; perhaps a workgroup-style forum would have been more-appropriate. As well, if and when this community does welcome in responsible local cannabis boutiques as part of healthy local commerce and culture, let's not make the same mistake that we have done with, say, Shoprite (http://tax1.co.monmouth.nj.us/cgi-bin/m4.cgi?district=0710&I02=071002700___00058___M), in permitting land title and rents of our vital community infrastructure to flow out of the community and out of the State in perpetuity. When we

Good evening,

I am a Livingston resident and a constituent and I am NOT in favor of opening a cannabis store or distribution center in Livingston. It seems the primary reason this is even being debated is to generate revenue for our Town, but we should NOT do this at the expense of our children.....

A drug problem already exists at Livingston High School and if anyone thinks a cannabis store here in town is not going to exacerbate this, they're just naive.

Teens in Livingston already have some illegal access to pot and a store will make it that much easier to obtain.

Frighteningly, our children are exposed to this gateway drug earlier and earlier and I'm now hearing that pre-teens in middle school are experimenting with it... Inviting the sale of this drug into our community and normalizing it is a slippery slope -- and our children will be the casualties.

Tonight's meeting was disheartening. The pro-cannabis lobby was obvious and organized -- they all had the same copy points and some called in from other towns outside of Livingston and pulled at peoples heartstrings with stories about the need for medical marijuana distribution centers -- which wasn't even on the table tonight!

If Livingston wants to remain an upscale pristine community -- one that doesn't allow vaping stores and gun stores or even drive thrus, why would we ever consider this?!?!?

I don't want people from other towns coming to Livingston to buy drugs -- it's simply not safe and not what we want to attract here... There was a comment from someone tonight who said that we should make Livingston "the silicon valley of cannabis" -- LOL -- God Forbid! I'd be the first person putting my house for sale and moving...

Thanks for the opportunity to write in... It wasn't a friendly environment for folks with a different opinion than the majority tonight.

Best,

Sherri Marrache

Black Lives Matter Banner Statement

The demographics in Livingston are very different from when I moved in 29 years ago and continue to change. The diversity in our town is constantly increasing, creating a beautiful patchwork of people and cultures. In my opinion, this makes Livingston a more desirable place to live and raise a family.

Unfortunately, not everyone is feeling welcome here. BIPOC residents are feeling their needs are not being met. They may want to be more involved in the town but are not aware of how or even if their participation would be welcome.

It is way past time to reach out and make it clear that we care about our BIPOC community. This show of solidarity would go a long way in demonstrating to the entire community that we are ONE Livingston and every single one of our neighbors' lives are important to us, and especially the lives of people who have historically been marginalized.

As the Chair of the Social Justice Committee, I would like to remind you of our core mission to "demonstrate our commitment to social justice by deepening the township's awareness of social justice, honesty, and freedom from bias." I, therefore, respectfully ask that we place a banner in town stating Black Lives Matter In Livingston, a statement that SHOULD be as obvious to you as it is to me.

Can you read this into the meeting?

Thanks.

Stacey Abenstein

> Dear Livingston Town Council Representatives,

>

> On January 6, 2021, rioters attempted an anti-democratic insurrection at the Capitol Building in Washington, D.C., incited by the President of the United States and certain Members of Congress. I call upon you to issue a strong public response to this appalling event.

>

> The President of the United States betrayed his oath to uphold the Constitution. He attempted to disrupt the certification of a free and fair election, encouraged acts of domestic terrorism, and impeded attempts to send in reinforcements, thereby putting our nation's leaders in danger. He must face the most severe and swift consequences. All those who planned, enabled, or participated in these seditious acts must be prosecuted to the full extent of the law.

>

> I respectfully ask you to take immediate action on our following demands:

>

> (1) Call for governmental censure of President Trump for his role in inciting the insurrection.

>

> (2) Demand the immediate removal of President Trump through the 25th Amendment or impeachment.

>

> (3) Publicly condemn the white privilege afforded by law enforcement to January 6 perpetrators, and call out the stark difference in how police prepared for and treated the white supremacist insurrectionists versus peaceful protestors of color.

>

> (4) Insist on a thorough joint-agency investigation into the failure to secure the Capitol Building, both in advance and in the midst of the insurrection, through appropriate coordination with federal and municipal law enforcement and the National Guard.

>

> (5) Demand that the Department of Justice prosecute all those who incited or were complicit in the insurrection, including President Trump and Members of Congress, to the fullest extent of the law.

>

> New Jerseyans need to hear loud and clear that the events of January 6 are reprehensible, and do not represent the values America stands for. While this was indeed a dark day for our country, American democracy is strong. I look to you as our elected official to use your power and influence to amplify this message. I consider it necessary to uphold your oath to defend us "against all enemies, foreign and domestic" by acting on the above demands.

Good evening,

What is the status of the tents and having all four sides down at The Ritz and The Landmark violating the governor's Exec Order? Two days ago, I noticed Assado took both of theirs down and left only the frame of one. Wonder if they were finally complying or if it was for another reason. The other two restaurants still had all four sides down.

I reached out to Mr. Lewis but did not hear back.

Hi again,

The violation is having more than two sides down on a tent. This has been going on for months with Assado, The Ritz and The Landmark. The Landmark even had two fully enclosed tents outside at one point.

5. The proposal does not appear to take into account the strain so many more homes and vehicles will place on expensive Town resources, especially emergency services and schools.

The Town should not approve an application when it is demonstrated that its fulfillment will unreasonably diminish the quality of life in the neighborhood. The “lower-income housing” loophole should not be utilized to profit developers to the detriment of residents. Any development should enhance residents’ lives, not merely the developer’s wallet. We appeal to you to block the approval of the Ordinance No 14-2020 and prevent a precedent of spot zoning in our neighborhood.

Sincerely,

Anastasia & Oleg Tolstenkov

Dear Livingston Town Council,

We, the undersigned, Livingston residents and property owners, respectfully petition that the Town *not* approve the Ordinance No. 14-2020 that allows to construct a three-story mixed-use building and 6 (six) townhouses, 3 units each, at 457 and 461 S. Livingston Ave (2 lots between the north side of Shop-Rite parking lot and Wardell Rd), because it is inconsistent with the neighborhood scale-and-character guidelines, as set forth in the Code of the Township of Livingston, for the following reasons:

1. The proposed construction is overly large. It will replace two single-family homes with 26 new residences, a net gain of 24 additional residences, by utilizing the inclusion of five "affordable housing" units to justify the spot zone change.
2. The proposed buildings are far too tall, exceeding the height of the tallest existing buildings on the street. None should be taller than neighboring two-story buildings.
3. Street traffic on Livingston Ave is already heavy. Adding 26 units with potentially 52 more cars than currently on the street will unreasonably worsen traffic. The proposed up to 4,125 sq. ft. of retail sales and services on the ground floor of the mixed-use building will make the traffic situation even worse.
4. The lots currently sustain several mature trees that should be preserved because their loss would take several decades to mitigate.

[LivComment:115] Ord 14 mixed use overlay district

1 message

barbara Margulis

To: livcomments@livingstonnj.org

Mon, Nov 9, 2020 at 7:58 PM

Subject: Ord 14 mixed use overlay district

For lots 62and 63 block 2700

I do not believe a variance to change the zoning is warranted for this property. This was originally strictly residential. To change the zoning and put such an overkill project hurts the homes on S. Livingston Ave on the West side of the street and the homes on Concord and Midway. It also hurts the entire town due to the increase in traffic it will bring, the increase of accidents and surely, ultimately, inadequate parking .

With the proposed development at the corner of S. Livingston Ave and E. Northfield Rd it makes this proposed development even more unnecessary. We have plenty of areas in town to satisfy low income. Surely these 4 units are not so needed. Don't let the builders bully you into fearing a lawsuit. I'm sure your denial of this zoning change can be won by the town.

Thank you for listening.

Barbara Margulis

Re: Ordinance 14-2020 Mixed-Use Overlay District for Lots 62 and 63 in Tax Block 2700

When someone purchases a home, they normally check the zoning in the surrounding area. This area is zoned for single family residences. Purchasing a home is a large investment and it is not fair that the zoning gets changed to allow for congested three-story townhouses and businesses.

Within two blocks of this property, around the area of Northfield Center, there are at least sixteen commercial establishments that are currently vacant. Every strip mall in this area has at least one vacancy.

We took a short ride down Route 10 past the circle and counted twenty seven stores or businesses that are up for sale or lease. Most of these closures have pre-dated COVID.

Doesn't this send a message that there is definitely **NOT** a need for more commercial establishments? Why create more competition for the businesses already struggling. The trend today is more towards on-line shopping. Most people prefer to shop at retail stores and grocery stores that offer discounts and more value.

Maybe Route 10, which has more room, should be rezoned to provide for residential townhouse communities and to become more pedestrian friendly. There is definitely a need for sidewalks for the many people who currently walk there. This could improve the aesthetics of our town and set an example for other communities to follow, instead of degrading established residential areas.

Eliminating the commercial element in this ordinance and allowing a few two-story townhouses that are spaced apart from each other would be preferable and would fit in more with the character of the neighborhood.

Better still, it would be ideal if the Township of Livingston could purchase these beautiful properties along Canoe Brook to use as a naturalized garden for pedestrians to enjoy. Research suggests that spending time in nature helps people to relax and recover from stress and this would be more beneficial to our community.

[LivComment:106] Follow Up on Question surrounding Smart Meters

1 message

Brian Goldblatt

Mon, Oct 5, 2020 at 8:14 PM

To: "livcomments@livingstonnj.org" <livcomments@livingstonnj.org>

Thank you for taking my question regarding the PSEG meters. It would be appreciated to please further due diligence the EMF implications surrounding the SMART meters. The gentleman from PSEG said that the RF frequencies are low, but how about the magnetic fields specifically? I believe it's important to get clarification on this. Many people in other places in the US have opted out regarding health concerns, so having that option is important, but also understanding the implications of neighboring homes having these meters. There has been growing health concerns amongst many highly credentialed sciences regarding EMF (which could be sourced from meters), specifically concerning young children and pregnant women. Thank you for your consideration.

Township Council Public Comment Responses

4. Gaining Local Control Over Our Processes. Surprised that this honorable Council has not actively fought harder for the ASI Data and Methodology Manual. As an aside, we should have the company that we retained for affordable housing compliance come present to this honorable Council how they do their job. We'll want an understanding of how their algorithms work and the data sets they use. Could get some of the local FBLA kids involved to review whatever forms must be filled out. Maybe schedule the presentation for a live Council conference meeting in the spring. In the meantime, let's actually have a townwide conversation about what a healthy and growing community should look like. Opportunity to really engage all of the real property owners in any given district for healthy generational redevelopment that makes broad sense to everyone involved. Tough to do on a piecemeal basis with every developer who signs an option with a community resident who is about ready to place a stake under a palm tree in Florida. There has to be more of an organic community engagement.

5. The Blue Ribbon Mall Committee. Thrilled with the Blue Ribbon Mall Committee. Have them focus on the current ownership and financing of the Sears property. Worth having the Mayor and Township Manager and Counsel develop relationships and go down to Florida to pay some respects to those who provide real property ownership services. Can finesse the entire mall property back to the community in a manner that makes real sense to all of the people involved. Maybe after, the Committee could turn to look the old vacant bank property at [92 S. Livingston Avenue](#). If retail banking in the community actually had a fiduciary duty to the community, ownership of that real property would never have been passed to Private Equity interests.

6. All Housing Should Be Affordable by Local Labor. We have so many variables under our control. If the appreciated value of real property stays in the community, we may realize and express it in so many creative ways in a healthy and growing community. No doubt on the next Council Zoom that it will be interesting to discuss that salary table (Ordinance 15-2020). Thought exercise... Assume for the sake of argument that the table is entirely correct by the methodology used. How might we check it to see if it meets the needs of the community members who actually do the work? What is the "cost of living" in this community and how might we actually account for it? Why should a Purchasing Manager earn more than a Public Health Nurse? **Bonus...** If after the Council Zoom went into closed session last night, the political junkies in the community switched over to the School Board Zoom to discover that substitute teachers in this community are being paid a mere \$100 per day, how would that inform your thoughts about Town Hall's salary table, and how would you raise the discrepancy at the next Five-on-Five?

Note that whether we are talking about schools or police or public works or real property development or affordable housing algorithm compliance or county no-bid cooperatives, if we can capture the value of labor locally, we are able to generate all kinds of rich returns in healthy local commerce and culture. Leadership should develop a plan that gets the community actively involved in doing the work that supports healthy community growth. Opportunity to reorganize labor locals.

7. It seems like our schools are having a bit of a labor action. Would welcome the involvement of the Senate President and our State Senator to get it resolved quickly, empowering us to make accommodations wherever necessary to responsibly get our community schools open.

Glenn Turtletaub <gturtletaub@livingstonnj.org>

[LivComment:104] Thoughts About Last Night's Council Zoom

1 message

Justin Escher Alpert

Tue, Sep 22, 2020 at 12:37 PM

To: Rudy Fernandez Jr <rfernandez@livingstonnj.org>, Shawn Klein <sklein@livingstonnj.org>, Ed Meinhardt <emeinhardt@livingstonnj.org>, Michael Vieira <mvieira@livingstonnj.org>, "aanthony@livingstonnj.org" <aanthony@livingstonnj.org>

Cc: Barry Lewis <blewis@livingstonnj.org>, "sensweeney@njleg.org" <sensweeney@njleg.org>, Senator Codey <sencodey@njleg.org>, AsmMcKeon <asmckeon@njleg.org>, "Asw. D.O. Jasey" <aswjasey@njleg.org>, Jon Bramnick <asmbramnick@njleg.org>, "townclerk@livingstonnj.org" <townclerk@livingstonnj.org>, "livcomments@livingstonnj.org" <livcomments@livingstonnj.org>, West Essex Tribune <tribuneeditorial@verizon.net>, Danielle Santola <dsantola@tapinto.net>

Dear Honorable Members of The Township Council:

My, what an incredible time to be a resident of Livingston, New Jersey, a community with unlimited potential.

Thank you for reflecting on the following thoughts about last night's Council Zoom:

1. The Way Things Are Done. There are a million different ways to say that we are doing something because *'this is the way that it is done.'* The hallmark of a skilled and educated, active and engaged community is that they innovate and improve on the model. With a complete political alignment from the Township to the County to our Trenton delegation to our national delegation, now is the time to establish leadership positions and actually effect change. If week after week, issue after issue, our hands are tied because this is *kinda how its done*, and we find that it is very difficult to get a copy of the play book when we ask for it, a skilled and educated community like Livingston actually has a responsibility to stand forward. It turns out that we have friends in every other district of this State and on both sides of the aisle who could rise up together to effect policy change for the accountable and equitable benefit of healthy growing communities. And if ever our community feels like it has lost real control over any process, there are perhaps other communities that feel the same way, and we could align to effect positive change which creates real value for healthy and growing communities.

2. Too Many Closed Session Topics. Welcome a public report at the next Council Zoom on how the important closed-session legal strategy meeting went for the outdoor drive-in movie at the mall.

3. A Master Plan is Active. We seemingly do not have a master plan for the corner of Livingston and Northfield. A "plan" denotes something active. Perhaps we have a master set of limitations that is rather passive in nature. To the extent, as expressed by the dais, that a 'master plan' was in fact developed a few years ago, nobody from the community really understands it. And make no mistake, healthy growth creates real value for a vibrant, healthy, growing community, but if when we account for the appreciated value of real property (especially when there is a zoning change), if that appreciated value will be retained by interests outside of the community (or worse, in perpetuity by those interests), then the community is being bled dry. Seems like it happens over and over again. Often times riding in on the public float. Sometimes the same creatures come back for a second bite.

Sun, Sep 20, 2020 at 10:34 AM

Dear Editor,

My name is Jesse and I'm an Editor at [Happy DIY Home](https://www.happydiyhome.com/). I was doing research on sprinkler controllers and just finished reading your wonderful piece: <https://www.livingstonnj.org/465/Register-a-WaterSense-Certified-Smart-Co>

In that article, I noticed that you cited a solid resource that I've come across in the past: <https://www.epa.gov/watersense/irrigation-controllers>

We just published an updated, comprehensive guide on how to choose the best sprinkler controller to irrigate your yard. It is completely free and you can find it here: <https://happydiyhome.com/sprinkler-controller/>

If you like the piece we'd be humbled if you cited us in your article. Of course, we will also share your article with our 100k newsletter subscribers and followers across our social platforms.

Either way, keep up the great work!

Warmly,
Jesse

To: livcomments@livingstonnj.org

Tue, Sep 8, 2020 at 7:18 PM

Are these safe from vandalism? I would like to drop off my ballot in the drop off box but worry about wackos out there destroying them! Can you provide one at the townhall so it is safe to drop off the ballot

Is there a mechanism to find out that my ballot was received and counted?

Thank you
Raksha (Rocki) Andreassen

To all of the SYLS Town Camp Staff:

I want to send out a HUGE CONGRATS to Camp Supervisor Corinne Olson and all of the SYLS Town Camp Staff! While Camp is always a ton of hard work, the challenges you faced this summer were daunting and literally have never been faced before. Without hesitation, you all stepped up and met those challenges head on! From the early weeks of prepping, organizing writing and rewriting policies...to the 90 degree days, the Tropical Storm days and every 12 hour day in between, you were there making sure your campers were safe! Thank you for providing over 400 Livingston children the opportunity to safely socialize, play, learn and most importantly HAVE FUN! Great Job!

From, SYLS Director Jennifer Walker

1 message

Justin Escher Alpert [REDACTED]
To: "livcomments@livingstonnj.org" <livcomments@livingstonnj.org>

Mon, Aug 17, 2020 at 7:35 PM

Justin Escher Alpert
56 Amherst Place

Dear Mr. Mayor:

Thank you for welcoming the following comments and questions.

1. **Item 5: Closed Session:** There seems to be a tremendous amount of business done today behind closed doors. Is it all necessary? Can you broadly outline what's going on with the St. Barnabas Tax Appeal? Is a Social Justice Committee really a matter for closed session? Why?
2. **Item 13: a) Ord. 10-2020 Establishing R-5K Residence District** - Should the this honorable Committee consider a more-comprehensive "affordable" housing program to account for and meet the needs of a healthy and growing Livingston Community? Could we have our outside affordable housing coordinator come in and show us the work that she does and the forms that she fills out, to give us a common perspective about where we are on affordable housing policy so we can begin thinking about taking over responsible local control?
3. **Item 13: b, c, d) Bond Ordinances:** Is this honorable Council open to approaching Assemblyman McKeon to place a special assessment on securitized interests in real property to offset residential taxes for the accountable benefit of People who actually live and work in a vibrant, healthy, and growing Livingston community?
4. **Item 14 g) R-20-184: Authorization to join Essex Sustainable Energy Alliance:** We are just now pulling out of our energy aggregation contract, do we need to immediately enter into another? Why are we outsourcing negotiations to Maplewood rather than keeping that process in-house? Would we be better-off building an alliance to impose a new underlying accountability on our regulated public utilities?
5. **Item 14 R-20-189 Authorizing Shared Services Agreement with the City of Newark for Provision of Interim Heath Officer Services.** What's going on here? What are the terms? Does this honorable Council have any interest in building up a more-robust county-based public health care system? In that respect, is it worth taking a systemic diligence of this community's health care expenditures? Perhaps there are ways to recapture health care values that are bled out of the community for healthy and responsible community reinvestment. Worthy of a separate conversation.

Thank you very much for your consideration and insight, Mr. Mayor.

Very truly yours,

Justin Escher Alpert

As a new resident of Livingston, I am concerned that sidewalks are not safe to walk especially along Northfield. I am a mom of young children and sidewalk in town are very dangerous to walk. Everytime we walk along Northfield my five year old falls and hurts himself. We love to walk and condition of the sidewalks are a discouraging to walk around especially during these times.

Again, since I am new I am curious how sidewalks are maintained.

July 8, 2020

Attn: Council Members

Anthony and Michele Violette
21 Arden Road
Livingston, NJ 07039

Subject: Block 3700, Lot 24 Redevelopment Study

I am a Senior Citizen and Handicapped and my wife (Michele) and I have lived at 21 Arden Road for 29 years. If we had to move it would be a terrible hardship on us.

At the June 25, 2020 Planning Board Meeting, Ms. Donna Holmqvist and Mr. Barry Lewis spoke of non-eminent domain and non-condemnation or taking of properties, and Mr. Peter Klein the Chairman said I would not be compelled to leave my home so I don't get anxiety but, the only way I would not get anxiety is to ask can you please take my home off of the potential Redevelopment Study?

Thank you for your consideration.

Anthony and Michele Violette

[LivComment:78] Question for council meeting

1 message

David Reinfeld [REDACTED]

Mon, Jun 15, 2020 at 5:07 PM

To: "livcomments@livingstonnj.org" <livcomments@livingstonnj.org>

Hi Carolyn. Please see below for tonight's meeting. Thanks

David Reinfeld 257 E Northfield Rd

Unsurprisingly, I have not received an answer from my question posed to the council from the June 1st meeting nor have I received an answer to my email sent to the council on May 7th or 21st. I understand everyone is busy but ignoring me, similar to ignoring the sidewalk situation will not resolve the issue. I discuss the topic with many concerned residents on a frequent basis and we do not appreciate being ignored.

Upon speaking with the towns code enforcement department, I have learned that sidewalk ordinances are systematically not enforced. The share program ended in 2016 and since then the council has left the pedestrians of this town in the worst possible situation. While citations may or may not be issued, it is obvious that tickets and fines are not assessed. Could you imagine speeding tickets were issued without fines? Clearly it would accomplish nothing.

Children are falling off of their bicycles and tripping over pieces of asphalt, Mothers are pushing strollers side by side with cars driving 40 miles per hour and our council is sitting idle, having failed to act for the last four years.

I just heard of a resident on Tanger who recently fell on the sidewalk and broke her finger. The towns non existent sidewalk policy caused this resident to have surgery. Should the town be liable for these injuries since it chooses not to enforce its own ordinances?

Sidewalks are designed to keep people safe and we should treat them as such.

I have notified the town of multiple dangerous sidewalks over the last two years and the only improvement I have seen was a patch that repaired one broken section after numerous calls and emails. Other residents who I have spoken with said their notifications to the town have gone ignored.

Please, I ask you to give me a call tomorrow in order to have an open and honest discussion on this matter. I can be reached during normal business hours at [REDACTED]

Thank you

Good Morning Jeff,

Tonight's meeting is operating differently than prior meetings, it will be conducted as a zoom webinar. This allows for the public to actually dial in or access the link online and speak in person. I've attached our Agenda so you can understand exactly what I'm referring to. If you are not interested and still want us to read your comment/question, I'd be more than happy to.

Please advise,

Carolyn Mazzucco

Deputy Clerk, RMC
Livingston Township
(973)992-5000 #5403

Dear Mayor Fernandez and council members:

With the restrictions put in place by the Governor to help fight the Coronavirus being eased, and with parades and Firework celebrations now being allowed, is the Council considering either or both of these events? Although it may be difficult to put both in place by the 4th of July, perhaps a celebration of some sort can be planned during the summer months before our college aged students return to their campuses.

I would love to see Livingston be proactive in these areas and get these types of events, which now are permitted, subject to social distancing, back on the calendar.

Respectfully,

Jeff Grabelle

David Reinfeld
257 East Northfield Road

On September 17, 2019 I notified the town manager and code enforcement official about a dangerous sidewalk at 31 Bilingsley, nothing was done and today I watched a young boy fall off his bicycle and hurt his ankle on that very sidewalk. This injury never should have happened.

1. We have more residents walking now than ever before. Can you please provide an update on the towns plan to fix the sidewalks on East and West Northfield? I have seen numerous people struggling to push strollers, people with disabilities struggling to get to the doctors office and countless residents forced to walk in the street with oncoming traffic. This is the busiest road in town, the situation should be addressed with urgency before someone gets hurt.

2. Can you please provide with details, the towns sidewalk ordinance enforcement policy and procedures.

- How long after notice are fines issued?
- How long are fines issued for and at what rate?
- When and what are the determining factors for resolutions to be brought to the council for written notice to be served to the delinquent homeowners.
- After resolutions, when does the DPW cause the required work to be done?

The public ordinance does not provide such details. I assume DPW repairs are in full compliance with ordinance specifications but please confirm.

Thank you

Justin Escher Alpert

56 Amherst Place

Dear Mr. Mayor:

Three things, please.

- 1) Item 5 a) and b) What properties are potentially being redeveloped here?
- 2) Item 6 b) McManimon, Scotland & Baumann - Is this for the Public Works Space? How much is the bill? What hourly rate are we paying?

Item 6 c) McCarter and English - Is this still for the tax challenges? How much is the bill this month? Is there some sort of data sheet that is made up for Appraisal Systems, Inc. to review that shows them how their model fell short? Will the Council get to see that? It has been about six months now, any update on when we may receive a copy of the ASI Data and Methods Manual?

Item 6 d) - Antonelli Kantor - Is this still for the eminent domain acquisition of the Public Works lot? What is the status of that?

- 3) Item 14 b) R-20-126 - Livingston Corporate Park Associates - What's going on here? Can please you fill us in on the details? As an aside, when we change the use of land from a corporate park to housing (or any other fundamental change in zoning), we ought to be tracking the cash flows associated with development, subsequent rents, and the appreciated value of the real property. All kinds of ways those rich cash flow streams could have measurable real returns to a healthy and growing Livingston community.

Thank you for your insight.

Best regards,

Justin Escher Alpert

[LivComment:72] POP UP Movie Update

1 message

Jeffrey Grabelle [REDACTED]

Mon, Jun 1, 2020 at 6:36 PM

To: livcomments@livingstonnj.org

Cc: Jennifer Walker <jwalker@livingstonnj.org>, Alfred Anthony <aanthony@livingstonnj.org>

Dear Mayor Fernandez and the Township Council:

I wanted to update the council on what has been transpiring with the POP UP movie concept that was presented to the council back in May.

Last Thursday, members of the town council, along with members of the POP UP committee and SYLS team met at the CIT Group parking lot for a "site inspection." Also present was a representative of Summit Soundz, the vendor SYLS has selected to run the movie night. The meeting was extremely productive.

Since the meeting, I have been in contact with Mayor Chris Siciliano of Ocean Township, who advised that their event went off "without a hitch" on May 28th. I then contacted Jen Walker, head of SYLS and council member Anthony of the developments in Ocean Township. Jen Walker then provided an update on the Livingston Pop UP concept, subject to council final approval, as follows:

- Movie Night will be Sunday June 21st @ 1 CIT Drive, approved by property wonder Onyx
- We are looking to Show the Movie "Playing with Fire" which we think will be great for Father's Day! The application has been submitted
- We are currently working on the parking plan, but it looks like we may be able to get between 125 and 175 cars in for the event. All spacing will meet social distancing requirements
- Port-a-johns will be available on site and delivered the Friday before the event, and picked up the Monday after.
- Once we have confirmed the Movie, SYLS will begin advertising and taking registrations through Community Pass. This event will be open to Livingston residents only, and to ensure that those registered can enter the event, we will require the make and model of the vehicle as well as the license plate tag.
- We have been informed by the Movie company that we will NOT be allowed to charge a fee. Charging a fee would require additional licensing from the Productions Company. In lieu of a fee, we are looking for **creative** ways to raise money so we can donate to charitable causes.
- Set up by Mike (Summit Soundz) will begin around 5pm. Vehicles can begin to enter around 7:30pm and **showtime** will be 9pm.

More updates will be provided as they develop.

Again, I want to thank the council for taking the time to consider this event and look forward to your response.

Respectfully,

Jeff Grabelle
81 Irving Avenue

Banning and enforcing false security alarms that "go off" from the hours of 11:00PM to 7:00AM

In recent times, throughout my neighborhood, there are systems that play music when the alarm systems are activated/tripped.

These late night/very early morning blaring sounds are a total nuisance and a disturbance to sleep.

I plead with the town to do a better, more vigilant job, of enforcing these late night infractions.

I please ask for a plan to combat this quality of life issue and to restore peace and quiet to our neighborhood!

Thank You!!

Hi,

The Agenda is posted on our website, www.livingstonnj.org (and attached). If you look at the Agenda, you will see that there are two public comment sections. The first is on Agenda items only, and the second is on any topic. There really is no timeframe for submittal, except to send it by the time the Mayor announces the public comment section. You are welcome to even send it earlier in the day if that's more convenient. We read them aloud on a first come first serve basis, and only ask that the submitter includes their name and address. The councilmembers will address the questions at that time.

Thanks,

Carolyn Mazzucco

Deputy Clerk, RMC

Hi guys!

We are in limbo waiting for the Governor to give clearance for opening public pools. We do have a conference call tomorrow morning with the State Health Dept, so we are hoping to get some guidance from them.

In the meantime, we have been diligently working to get Memorial Pool up and running, so we will be ready as soon as we get the clearance. The one thing we do know, is that if we are allowed to open, there will absolutely be new policies and procedures put into place to meet CDC guidelines related to COVID-19.

Thanks so much,

[LivComment:58] Drive In Movie Theater Update

1 message

Jeffrey Grabelle

To: livcomments@livingstonnj.org

Mon, May 11, 2020 at 7:04 PM

Good evening Mayor Fernandez and Council members:

I am Jeff Grabelle, a resident of Livingston, residing at 81 Irving Ave, Livingston, NJ 07039 for the past 18 years.

First, I want to again commend the council and town manager and all those involved in our municipal government for the tremendous job they are doing during these trying times of COVID-19. I hope everyone is well and staying safe.

Second, I wanted to thank the council for allowing me to go forward with a Drive In Movie night concept, which I first presented to the council at its special session on May 1, 2020.

After the council meeting, I had discussions with Jen Walker of SYLS as well as Council member Anthony. We then participated in a conference call with the Mayor of Ocean Township, Christopher Siciliano. We had a very good conversation and had a lot of positive discussions about trying to bring a Drive In movie to the residents of Livingston. Mayor Siciliano advised us of what steps he had taken to date to try to bring a Drive In movie to Ocean Township. He did mention that he did not receive clearance from the Governor's office at the time of our first call. Jen Walker then said she would speak with the Township Police to see how we could go about getting clearance for the event.

On Friday, I communicated with council member Anthony that I would reach out to Mayor Siciliano to see if he had heard anything back from the State. He texted me that everything was on hold at this time and he was waiting for further guidance from Trenton. I communicated this information back to council member Anthony.

Lastly, at the suggestion of Council member Klein, I reached out and spoke with Massimo Dente, a resident of Livingston, and he told me he would be interested assisting with this endeavor.

On behalf of Mr. Dente, I wanted to thank you all for taking this idea seriously and look forward to the day when we get the green light to go forward with this event.

Respectfully submitted,

Jeff Grabelle
81 Irving Ave

Dear Mr. Mayor:

Thank you for discussing the following points:

1. Item 6(c): Please keep us apprised of your drive through and drive up policy.
2. Item 7: How much were the legal fees to (i) McCarter and English, and (ii) Murphy McKeon for this past month? What rates are we paying?
3. Item 14(a): Tough for every individual to realize the rather small value of monthly savings from the Energy Aggregation Program. Can we please reorganize our energy aggregation program so that the Township itself actually receives a single quarterly reimbursement check from the facility so that it may be accountable reinvested in the community? Welcome opportunity to lead a team of communities in imposing a new underlying accountability over our public utilities.
4. Item 14(b): We need more mixed use zoning as part of a larger, more-comprehensive development plan. We should develop local labor, check the financing, and make sure that rents will be banked locally. To the best of our ability, prevent the appreciated value of the real property from flowing out of the community. Careful to avoid many of the other problems that have persisted as complexes were developed in the community over the past 15 years. The corner of Northfield and Livingston has infinite potential value that may be fully-recognized by the community if we structure redevelopment properly. Why should every unit not be "affordable" to a member of the community? When we do our due diligence, it looks as if one of the three lots is owned by interests outside of the community that are affiliated with the "Jersey Affordable Housing Management Association." Perhaps they would be open to a fresh approach to developing to meet the needs of a healthy and growing Livingston community.
5. Item 14(d): Ord. 9-2020 not attached.

Thanks!

Justin Escher Alpert

[LivComment:52] Pop Up Drive In Movie for Livingston Residents

1 message

Jeffrey Grabelle [REDACTED]

To: livcomments@livingstonnj.org

Fri, May 1, 2020 at 11:11 AM

Good morning Mayor Fernandez and Council members:

I am Jeffrey Grabelle, a resident of Livingston, residing at 81 Irving Ave, Livingston, NJ 07039 for the past 18 years.

First, I want to commend the council and town manager for the tremendous job they are doing during these trying times of COVID-19.

Second, I wanted to present an idea that I have seen on several social media sites, including L'Town as well as a post from Mayor Christopher Siciliano of Ocean Township, where I grew up. This pertains to Pop Up Drive in Movie nights.

In Ocean Township, Mayor Siciliano has notified his citizens of a drive in movie night that will take place later this month. I think this is a great idea and I would like to explore this possibility with the Township of Livingston by leading an ad hoc committee, or co-chairing one. I would perform due diligence and present the pros and cons and any findings the committee comes up with to the council at its next meeting.

I have spoken in person with Council member Al Anthony. I would like permission to look into this. This could be a win win for the township and its residents.

Thank you for letting me speak via email.

Regards,

Jeff Grabelle
81 Irving Ave

Dear mr mayor and town council members,

This is Cindy Wang from 48 westmount drive. Hope this email find you all well.

My neighbors and I have brought this to the township many times since my family moved here in 2017. But it has never been addressed. People often drive in speed over 50 miles per hour zooming thru westmount drive. The block has couple of curve point and only "encouraged" ppl in their fancy cars step on their gas paddle more. Many new family with young children have moved to the neighborhood. Now everyone is home during pandemic, young family often walk or bike out on the block just to get some fresh air. People try to stick with the social distancing rule and often times crossed the road to try to avoid "bumping into other people". Can you imagine with young family walking/biking, people waking their dogs, joggers... then a fancy suv or a sport car zooming on the street while the drivers chat over the phone? An accident is doom to take place. Please have the police department set up a speeding sign and try to monitor the speeding issue on my block more attentively.

I appreciate your prompt attention. Should you have any questions, feel free to contact me at [REDACTED]

Best regards
Cindy Wang

Hi, There:

There is a bridge on Lauren Avenue. The brook under it is undermining the abutment and embankment of the bridge. If you send workers to redirect the flow by laying some boulders at the foot of the embankment, the embankment and road will be saved.

Regard

Hi, There:

I'm a resident of Livingston. I heard there are more than 300 people Covid-19 tested positive in Livingston. The number grows very fast. Could you tell us about how they got the various? Or where they got? And where are they now? What should we do? If the virus spreads in Livingston quietly and no one knows how it spreads, it will be a big problem. If we know it, at least we can prepare.

Sorry for bothering.

Subject: [LivComment:46] A Bridge Under Ecrosion On Lauren Avenue

To: <livcomments@livingstonnj.org>

Hi, There:

There is a bridge on Lauren Avenue. The brook under it is undermining the abutment and embankment of the bridge. If you send workers to redirect the flow by laying some boulders at the foot of the embankment, the embankment and road will be saved.

To: <livcomments@livingstonnj.org>

Hi, There:

I'm a resident of Livingston. I heard there are more than 300 people Covid-19 tested positive in Livingston. The number grows very fast. Could you tell us about how they got the various? Or where they got? And where are they now? What should we do? If the virus spreads in Livingston quietly and no one knows how it spreads, it will be a big problem. If we know it, at least we can prepare.

Sorry for bothering.

[LivComment:39] Follow up...

1 message

Stephen Gilberg

To: livcomments@livingstonnj.org

Mon, Apr 13, 2020 at 8:11 PM

Steve Gilberg, Baker Road

Follow up to the peanut butter question. Deputy Klein made this recommendation via his account which appears to be a public account that Deputy Klein uses for town purposes, as well as personal purposes. How would anyone know this was personal advise and not public advise?

Given the current state of our hospitals, perhaps this advise should not have been given now, particularly as it may be construed to be advise given by the town and opening it up to any liability should there be a bad reaction to the peanut butter.

Mon, Apr 13, 2020 at 8:00 PM

To: livcomments@livingstonnj.org

Steve Gilberg, 39 Baker Road

I've been told that the Township, via Deputy Mayor Klein's post on LTOWN Lowdown, has recommended to residents of Livingston with babies aged 4-6 months of age "that it may be particularly important to give them peanut exposure." Could the town please explain why this is being recommended?

Mon, Apr 6, 2020 at 7:32 PM

Hi Glenn,

ONLY IF AL DOESN'T MENTION.

If Al does not bring it up, the Livingston Chamber of Commerce is hosting a multi chamber Zoom meeting on Wednesday at 2:00 with Congresswoman Mikie Sherrill. She will discuss what is going on with the crisis.

Also we will have a representative from the NJEDA to talk about what assistance is available to small business.

And we will have Dr Eric Handler from Saint Barnabas to discuss what they are going through and what we can do to help them and ourselves.

Sign up on the Livingston Chamber of Commerce page on Facebook.

Thank you to everyone for continuing to do a great job for the community.

Monte Ehrenkranz

Didn't come to mine either
Steven, help!
