Would love to do this but it's during the day and I work. Any evening courses coming up?

Karol Purcell, we have offered this program several times in the evening. However, there are residents that would like to attend who are unable to drive at night, so we are having this year's class in the morning to accomodate them.

Curious, will LPD be speaking to deleting public records from Facebook pages under its control? The following Open Public Records Request (OPRA) reveals that's apparently what's happening. Will a statement be issued to let the community know who is directing that records be removed from public view and why? -> __PF: 1fab4313b8538f3212a5
