Subject: June 10th Worksession and Meeting

Good Morning Lenora,

Two requests for same meeting -

- 1) Are the draft minutes from the 6/10/2020 Work-session and Meeting available yet? I don't see them posted online, however if a copy is available please forward.
- 2) In addition, I'd also like a copy of all the chat/notes/messages/comments/questions etc. between Mayor / Council / attendees / etc . from the 6/10/2020 Zoom (parts 1 and 2).

Thanks,
Eileen

Question

I am here but not in :)

I live 5 houses down from 21 Boulevard and the Field's garden is the highlight of the street. What is the Safety? The speed limit is 25 mph.

who is on the look ahead committee?

sorry Andy Gibbs 38 Devonshire who is on the look ahead committee?

Can't come on to speak from where I am but I'm wondering about the non rockers dining places. ie. la Non Rock road I meant

4th of July parade comment

Andy Gibbs 38 Devonshire on June 22 organized sports can resume, will borough fields follow that timeline what is "the Alcove?"

Perhaps the town can donate facial masks to our local businesses? It will help with having customers w Sorry about that. 37 Highland rd

Some of the big retail chains are giving them out so accommodate

Have you considered using Demarest Park as a place to feature outdoor dining?

153 Glen Ave.

Question, when ready: does the borough still have \$50K for the alcove space? Becky Greene, 35 Wayne What safety concerns might we face by holding outdoor seating for restaurants in parking lots/ by close Thank you.

Kristine ~ can we please start the dog park?

main

Will there be a senior citizen fee?

What provisions are going to be made for families that needed financial assistance ?

Art Pazan

285 Main Street

William Hulsing 65 Andover Terrace. With all the issues facing the Borough, is this pool issue something Will people have to sign a hold harmless waiver when using the pool so they cannot sue the town if the Pool Question - I don't think people knew the kiddie pool would be closed when the survey went out. I Sorry, mine is an opinion too.

Sally Trahan 46 Goodviet Pl

If you move forward - you haven't addressed water safety and first aid. This needs to be considered as

Diane herrlett

How will you handle the passes for the ambulance corps and fire department?

Emily Campbell

6 Amherst Court

I have worked at the snack stand the last few years. Do you think we'll have a stand open?

Very disappointed I missed Rob Dill's "Mohawk" phase

If any of the power/electric work has to be redone or altered due to Faber being remodeled will the dc
Cat park next?

Every other dog park in Bergen County has a water fountain for the dogs to drink from. Ridgewood and

Doesn't the structure have to go to the planning board too?

Yu can skip my question, I feel bad for how late it is.

I'm not an expert at all in buildings.. so hard pass.

Thanks for all that all of you been doing.

To: Fred Kowal
Subject: Re: Storm Response

Just finished the call.

As of right now - bergen county is at 54,000 without power. Yesterday that number was at 106,000.

We have to be patient - as there are separate tree crews and line crews needed to come in - and our DPW can not work on any trees with wires in them. This isn't a Glen Rock or Ridgewood issue - It's the totality of PSE&G.

I will keep you posted as I learn more.

Mr Kowal:

As this storm hit the entire state, reinforcements have been brought in from other states to assist. The trees can not be touched until PSEG confirms the wires are not live. My estimate came from a PSEG call which took place yesterday.

Our OEM and Local PD have been consistently contacting PSEG to get responses moved up. Our DPW is working diligently. I drove the town the past two nights and saw the magnitude of storm damage first hand. Moreover, the amount of public safety officials which are currently deployed to monitor the sites of caution is outstanding.

With over 100 homes affected this will not be overnight - and I share your frustration. I have a 2pm conference call with PSEG today. Along with that, I have our senator also reaching out to their contacts to alert the high priority areas. Specifically Doremus and Rutland Rd.

I hope that you are safe and if you need assistance reach out to me.

As a 35 plus year resident of Glen Rock, I can only wonder once again where any response is to this most recent storm. Three days into it and I have yet to see a tree company or PSE&G truck anywhere in sight. How do we expect to get our power back on when nothing appears to be happening? Where did you get your Thursday/ Friday estimate from? Very disappointing to say the least.

Thank you for your prompt response. We are one of only about 5 homes on Rutland without power between Lowell and Lincoln Ave. Everyone around us has power. This happens every time and we wait forever for power to be restored. I have been told that we are part of a Ridgewood grid. You might want to check on Ridgewoods actions if this is correct. Thank you, Fred Kowal

Mr Kowal:

As this storm hit the entire state, reinforcements have been brought in from other states to assist. The trees can not be touched until PSEG confirms the wires are not live. My estimate came from a PSEG call which took place yesterday.

Our OEM and Local PD have been consistently contacting PSEG to get responses moved up. Our DPW is working diligently. I drove the town the past two nights and saw the magnitude of storm damage first hand. Moreover, the amount of public safety officials which are currently deployed to monitor the sites of caution is outstanding.

With over 100 homes affected this will not be overnight - and I share your frustration. I have a 2pm conference call with PSEG today. Along with that, I have our senator also reaching out to their contacts to alert the high priority areas. Specifically Doremus and Rutland Rd.

I hope that you are safe and if you need assistance reach out to me.

Just finished the call.

As of right now - bergen county is at 54,000 without power. Yesterday that number was at 106,000.

We have to be patient - as there are separate tree crews and line crews needed to come in - and our DPW can not work on any trees with wires in them. This Isn't a Glen Rock or Ridgewood issue - it's the totality of PSE&G.

I will keep you posted as I learn more.

Subject: Trenches on Faber

Hi,

It seems to be that a very large area has been trenched on Faber and the trenches lead into the dog park. Image attached and you have to zoom in to see the stretch of land dug up.

I'm going to assume the dog park is getting electricity now even though they were told they were not going to be able to get power or water this year.

Some quick questions:

- When was this decided and approved by the M and C? I do not think I've missed any meetings so I assume this was approved off line.
- Will the dog park be paying for power on it's own? If not, why not?
- The dog park already has a sign up saying it's monitored by cameras. Will there be public discussion around the privacy issues once the dog park has power and the ability to put up cameras? Or is that another decision made behind closed doors?
- Has anyone checked the safety of the trench? It's only marked off with some police tape.

I'm sorry to be asking for all these questions during a pandemic, but I'm also sorry a dog park is getting electricity during a pandemic.

Best,

Subject: Windham and Plymouth paving

Robert and Carl,

I want to bring your attention to the street markings recently done on Windham to prepare for paving from September 4 to 17. I noticed that the no parking signs are only on Windham and not on Plymouth which starts at my house and continues to Lowell and then beyond to Dunham. Note that last year Plymouth was paved on the Dunham side of Lowell but not on the Windham side.

There is a question mark painted in the road at the bend of Plymouth into Windham, I assume to ask where the paving should start. I take it from the no parking signs that perhaps the crew was thinking that the short portion of Plymouth on the Dunham side maybe isn't included in the project.

Can you confirm that this short portion of Plymouth will be included. It would make no sense to not include it. No parking signs should be added to the Plymouth portion of the road.

Thank you.

Mark

Subject: Older Videos

Hi M and C,

Do you know where I can access the older videos? The GR TV account now only has 2019 and 2020 up, <https://vimeo.com/showcase/6296293> and <http://www.glenrocktv.com/>

I'm looking for 2017 right now.

Thanks,
Laura 160 Lowell

Subject: Re: Fw: Newly planted town-tree: No sign of life?

We will evaluate the tree in question in the course of our annual tree survey, which will take place this month. Newly planted trees are under warranty for one year, so if it's dead we should be able to replace it for you. Thanks very much for your query.

Laura, fyi, Candy and I are now co-chairs of STAC.

Hello Laura,

Need your advise on an environmental matter.

A couple of weeks ago upon my request, town planted a shade tree on our property at 46 Lowell Road. At the time of planting I noticed it did not have a single leaf. I have been watering the tree regularly ever since - still no sign of life.

I do not want to keep wasting precious water if they planted a dead tree.

I have contacted Public Works a couple of times to take a look and advise. No response yet.

Would you provide guidance please?

Thanks a lot!

Santosh

Subject: Newly planted town-tree: No sign of life?

Hello Ms. Hill,

Hope you are safe.

A couple of weeks ago Town did plant a tree on my property at: 46 Lowell Road. Thank you!

However, I noticed that the tree did not have a single leaf at the time of planting. I have been watering the tree regularly since it was planted. Still no sign of life.

Can you have someone take a look at the tree and advise on the next steps.

Sincerely,
Santosh

Hello,

Enclosed please find a form to plant tree on 46 Lowell road.

There was a town tree on this property. We lost this tree during a storm last year. Please plant a replacement tree at the same location (intersection of Lowell and plymouth).

Any questions, please let me know.

Thanks and regards,

Santosh Parulekar
