Thanks for your email. I am aware that they've taken no action. I am specifically interested in the committee's reasons for not taking action on these important issues. Also what is the best way to contact the mayor or a committee member directly.

Did you ever receive it?

Do you have an approximate date when I will receive a reply?

I'm sure you have, and I very much appreciate it. My concern remains that I have not heard anything back from the committee. As a representative body, providing feedback should not be made so difficult. It seems unreasonable to require more than written letters or email. Do you have an approximate date when I will receive a reply? I would like to know of an effective means of communicating with the committee.

Thanks for your email.

I have routinely sent letters to past Mayors and councils. Letters were either taken up during council meetings or through other correspondence. In all cases I was able to review notes, minutes, or other information to learn the governing body's thoughts and positions. I would like to continue with this practice in Mansfield. However, given your response I am unsure whether my letters are even being considered by this committee.

Would you please advise on an effective means of communication with the mayor and committee? Also, you mentioned on 4/28 that you would inquire on how I could contact the mayor.

Thanks,
Bill Sosis

Thank you for the update.
Do you know if the letters discussed or considered before the decision was made?
If so, when and by whom?

Hi Dena,

I'm following up on my email below. We also spoke telephonically on 4/28 about getting a response or how to contact the mayor directly.

You said you would be speaking to the Mayor prior to the meeting and get back to me.

Thanks,
Bill Sosis
