144 Crash Diagram (NOT TO SCALE)

145 Crash Description/Narrative

Box 112: Claw Truck Box 124: Bridge Hight Sign 10' 7"

My investigation revealed the following events: Vehicle #1 was traveling north on Suttons Lane and going under the railroad bridge. The roof of the cab for the claw mechanism impacted the underside of the bridge bending the roof toward the rear of the vehicle. Vehicle #1 cleared the bridge and the driver pulled to the side of the road as to not block traffic. Driver #1 stated that he was in route to the Township Garage and forgot about the bridge.

The Edison Police Crime Scene Unit responded to the scene to photograph the damage to Vehicle #1. There was no visible damage to the bridge.
