145. Crash Description/Narrative

On scene investigation concluded: Vehicle #1 was turning left from Route 88 Westbound to Midstreams Road. When the traffic light turned green vehicle #1 made the left turn when vehicle #2 began to accelerate to go Eastbound on Route 88. Vehicle #1 made the left turn failing to yield to traffic causing vehicle #2 to crash into the right rear of vehicle #1.

Driver #1 explained when the traffic light turned green he accelerated to turn on Midstreams road. When he turned left vehicle #2 crashed into the right rear of his vehicle.

Driver #2 explained she was traveling on Route 88 eastbound. She came to a stop at the traffic light at Midstreams Road. When the traffic light turned green she began to accelerate. At the same time vehicle #1 accelerated crossing in front of her. She applied her brakes but could not stop in time causing her to crash into vehicle #1.

During my investigation, I find vehicle #1 at fault for the crash for not yielding to traffic.
