145. Crash Description/Narrative

Vehicle #2 was stopped in traffic on RT 70 West in the far left lane. Vehicle #1 was traveling on RT 70 West in the far left lane directly behind Vehicle #2. Driver #1 applied the brakes when traffic stopped ahead, but was unable to avoid colliding with the rear end of Vehicle #2. Vehicle #1 sustained damage to the middle and front passenger side bumper, hood, and headlight. Vehicle #2 sustained moderate damage to the rear bumper.

Driver #1 stated he was traveling on RT 70 west in the far left lane. Driver #1 stated that while traffic was stopping he applied the brakes, but they failed causing Vehicle#1 to rear end Vehicle #2.

Driver #2 stated she was stopped in traffic when she was suddenly rear ended by Vehicle #1.

While on scene speaking with Driver #1, I tested the brake pedal to see if it was faulty. Upon applying pressure, the pedal went all the way to the floor with almost no resistance. Based upon my on scene observations, I concluded that Vehicle #1 had equipment failure causing the crash.
