145. Crash Description/Narrative

Investigation at the scene revealed:

The driver of V2 (vehicle 2) was stopped in traffic facing north in the right lane on Van Zile Road and was approximately 25 feet south from the intersection of Van Zile Road / Route 70. The driver of V1 (vehicle 1) was stopped in traffic directly behind V1. The collision occurred when the driver of V1 accelerated forward and impacted V2's rear end with her front end.

At the scene, the driver of V2 explained she was stopped in traffic prior to said intersection. While waiting for the light to turn green she was impacted / rear ended by the driver of V1. The driver of V1 explained she was also stopped in traffic and was directly behind V2. The driver of V1 related she believed the traffic signal had turned green and proceeded to accelerate forward into V2's rear end causing the collision. There I observed damage to the rear end of V2 and front end of V1.

All parties advised they were uninjured and declined first aid. Both vehicles had been removed from the roadway prior to my arrival. The driver of V1 was issued a careless driving citation (39:4-97, E21-007343).
