145. Crash Description/Narrative

Driver #1 arrived at headquarters on 01/17/2017 at 1147hr to report being in an accident the day before. He advised that he initially drove his disabled vehicle home and called headquarters from there because he did not have a phone with him at the time of the collision. Driver #1 further stated he was told by dispatchers that he could respond to headquarters within 24 hours to report the accident.

In speaking with him in regards to the crash, Driver #1 alleged that he was driving Vehicle #1 North in the parking lot of the Brick Hospital when his steering wheel suddenly locked up. Driver #1 advised that he applied his breaks but was unable to control Vehicle #1 which proceeded to drive off of the roadway, over a curb, and then strike a cement base to a lamp pole in the parking lot.

After speaking with Driver #1, I followed him back to the scene of the alleged crash. There was no visible damage or marks of any kind to the cement base. I also did not observe any tire marks or skid marks on the roadway or the curb that would indicate he attempted to apply his brakes. I did observe a black plastic section of an undercarriage on the ground near the light post that Driver #1 claimed was from his vehicle. I then followed Driver #1 to his residence to observe the damage to Vehicle #1 which appeared to be consistent with his account of the accident.
