135 Crash Description

On 12/24/16 at 1204 hours I was dispatched to the intersection of Rt 88 and Olden St in reference to a two car motor vehicle accident. Upon arrival I observed both vehicles had moved into a nearby parking lot prior to my arrival.

Driver 1 advised she was traveling east bound on Rt 88 as she approached the intersection of Olden St. She changed into the right lane of travel prior to continuing through the green traffic signal. As she entered the intersection she observed vehicle 2 making a left turn in front of her on to Olden St. She could not avoid vehicle 2 or stop in time due to wet road conditions and crashed into vehicle 2.

Driver 2 advised he was traveling west bound on Rt 88 as he approached the intersection of Olden St. He observed the traffic signal to be green and there was an opening to turn left on to Olden St. He advised as he was completing his left turn vehicle 1 abruptly changed into the right lane of travel to avoid another vehicle attempting to make a left in front of vehicle 1. As vehicle 1 entered the intersection it crashed into the right rear of vehicle 2.

Investigation at the scene revealed vehicle 1 was traveling east bound on Rt 88 as vehicle 2 was traveling west bound. As they entered into the intersection of Olden St vehicle 2 began turning left onto Olden St. Vehicle 1 entered the intersection after changing lanes, but could not stop in time due to wet road conditions and crashed into vehicle 2. Due to debris in the roadway and point of impact on both vehicles, it was determined vehicle 2 was nearly all the way through the intersection prior to the crash. Vehicle 1's lower right front crashed into vehicle 2's lower right rear causing damage to both vehicles. No injuries were reported at this time.
