135 Crash Description

On 9/25/16 at 1402 hours I was dispatched to the intersection of Rt 88 and Olden St in reference to a two car motor vehicle accident.

Upon arrival I observed both vehicle 1 and 2 stopped against each other on the southwest corner of the intersection. Med unit 537 was already on scene and evaluating all involved.

Driver 1 advised he was traveling westbound on Rt 88 as he approached the intersection of Olden St. He observed the traffic signal turn yellow and believed he could make it through the intersection in time. He advised he looked down at his dashboard momentarily and when he looked back up he observed vehicle 2 was in the intersection. He could not avoid vehicle 2 and crashed into it.

Driver 2 advised she was traveling westbound on Olden St when she stopped for the red traffic signal at the intersection of Rt 88. When the signal turned green the vehicle in front of her crossed over Rt 88 and she followed. As she entered the middle of the intersection she observed vehicle 1 run through the red light. She could not avoid vehicle 1 and it crashed into her.

Investigation at the scene revealed vehicle 1 was traveling westbound on Rt 88 as he approached the intersection of Olden St. He did not observe the red traffic signal and continued through the intersection. Vehicle 2, at the same time, was crossing over the intersection from Olden St. Vehicle 1's front crashed into vehicle 2 lower right front causing damage to both vehicles. Both vehicles were towed from the scene due to being disabled. Driver 2 was transported to Ocean Medical center for treatment to her right ankle. Driver 1 had a complaint of pain to his left hand, but refused further medical treatment on scene. Driver 1 was issued two summonses. E16-006221 for 39:4-97a and E16-006222 for 39:4-81.

There were two witnesses on scene who filled out motor vehicle crash witness statement forms. Both statements coincided with driver 2's statement.
