145. Crash Description/Narrative

D1 alleges that she was driving through the parking deck in attempt to find a parking space. She advised that her co-workers have previously driven through the parking deck with V1 and had no issues with the vehicle height. She advised that the pipe was partially broken (hanging from one side) and she went past in and did not realize her vehicle made contact with the pipe. She was stopped by a subject inside the parking deck and advised. She then provided her information to hospital security staff.

Witness K.B. (uninvolved/unrelated), advised that V1 was attempting to go under a concrete lateral support beam. As the vehicle attempted to go under, its roof struck a pipe.V1 then backed up and attempted again, but was still striking the pipe. V1 then continued through, pulling the pipe off.

V1 was traveling in the parking deck of 425 Jack Martin Blvd. At the entrance of the parking deck, there is a notice of maximum overhead height of 8'2". V1 struck an overhead pipe, which maintenance workers advised is a "drainage pipe". It is unknown if the pipe had pre-existing damage or was damaged strictly as a result of the MVC. Estimated cost of repair, per maintenance, is \$2,500.00
