145. Crash Description/Narrative

Vehicle 1 was west bound on Rt. 88 approaching the intersection of Van Zile Rd. when it swerved to the right to avoid the vehicle ahead who was stopping for the traffic signal. After swerving to the right, vehicle 1 ran off the right side of the roadway, stuck a No Stopping or Standing Sign then collide with a utility pole. #BT258BK.

Driver 1 stated that as she was approaching the intersection, she observed the vehicle in front of her abruptly break as the traffic signal turned yellow. To avoid colliding with the vehicle in front of her, she applied the brakes, swerved to the right which caused her to run off the right side of the road and into the sign and utility pole.

Driver 1 had a complaint of head pain but refused further medical treatment from responding EMS Units. Vehicle 1 sustained extensive disabling front end damage and was towed from the scene. The utility pole sustained only minor damage but was shifted in the ground by approx. 6 inches. The street sign was sheared off at it's base and was eventually located on the opposite side of the Van Zile Rd. intersection. The contributing factors for the crash were Driver 1 following to closely to the vehicle in front of her, the rainy weather and wet road conditions which caused the vehicle's breaking effectiveness to be greatly reduced.
