145. Crash Description/Narrative

Vehicle 1 was backing out of the driveway of 294 Lexington Ave heading northbound when they struck the front left wheel well area of Vehicle 2. Vehicle 2 was legally parked on the northern curb of Lexington Ave facing west when they were struck by the left side rear bumper of Vehicle 1.

The driver of Vehicle 1 stated they were not used to the electric vehicle or it's size that they were driving and applied too much pressure to the acceleration pedal while backing up, causing the vehicle to strike Vehicle 2. Vehicle 2 was unoccupied at the time of the crash.

I observed damage to the left side of the rear bumper of Vehicle 1 as well as white paint transfer. I also observed heavy damage to the front left wheel well of Vehicle 2 however it appeared to be operational.

118b. Driver inattention caused by the driver of Vehicle 1 not paying attention to how large his vehicle was while backing.
