145. Crash Description/Narrative

One car crash occurred on 3/15/2021 at approximately 1423 hours on Route 88 eastbound near the intersection with Route 70. My body worn camera was on during this investigation.

Driver of vehicle #1 advised he was traveling eastbound in the right lane on Route 88 when a traffic sign fell into the roadway causing it to impact his vehicle. Driver of vehicle #1 stated the structure of the sign was damaged prior to him approaching it.

I observed damage to the right side of vehicle #1. I observed the side view mirror was heavily damaged as well as the passenger front window was broken.

The traffic sign stated "Right Lane Ends" and I observed moderate damage to the left side of the sign. Driver of vehicle #1 was holding the sign out of the roadway on my arrival and when pulled upright, the damaged area of the sign was much higher than vehicle #1's damage indicating the sign fell on vehicle #1 or was down prior to his arrival.

145 Crash Description

Of note, the area has been sustaining high winds during and prior to the time of the crash. I also observed a 2-3 foot section of the sign support to be missing from the left post. NJ DOT was notified to respond to the scene due to the sign hanging into the right lane.
