145. Crash Description/Narrative

Investigation on scene revealed the following: Driver #1 was traveling westbound on Rt. 88 approaching the intersection of Laurel Brook Drive. When Driver #1 made it into the intersection, a Deer ran northbound into his lane of travel. As a result the deer struck the windshield of Vehicle #1 with its head. Initial impact caused the deer's body to turn counter clockwise causing the deer's body to shatter the front driver side window and put a large dent into the rear driver side door. After the collision it is believed the deer ran a short distance near the wood line where it ultimately succumbed to its injuries.

There were no reported injuries while on scene and the vehicle was moved prior to my arrival.

BWC footage available for this incident.
