145. Crash Description/Narrative

Crash Investigation Reveals: Vehicle #1 was parked in the area of 1872 Route 88 facing north. Vehicle #2 was parked in the parking space of 1872 Route 88 facing south. As both vehicles were backing, the rear bumpers came into contact somewhere in the middle of the travel lane causing minor damage to vehicle #1's rear bumper and no damage to vehicle #2's rear bumper.

Driver #1 explained he was fully backed out of his parking space and stopped in traffic waiting to proceed forward. While stopped he felt an impact from the rear and noticed vehicle #2 who had just backed into his vehicle.

Driver #2 explained while backing out of his parking space, he felt an impact from the rear of his vehicle. As he looked into his rearview mirror, he observed vehicle #1 who had just backed into his vehicle. Driver #2 stated both vehicles made contact in the middle of the travel lane while backing out at the same time.

Through observations and statements made on scene, I was not able to determine which driver was at fault, or which vehicle backed into which. Both vehicle were moved on my arrival. Vehicle #1 had minor damage to the middle
