145. Crash Description/Narrative

On scene investigation revealed that vehicle 1 was backing up in front of the emergency room entrance to load a patient. Vehicle 2 was also parked in front of the emergency room entrance to unload a patient. Vehicle 1 struck vehicle 2 resulting in minimal damage. The drivers provided the following statements:

Driver 1 stated she was backing up in the lane out front of the emergency room so she could get her husband who was released from the emergency room into the vehicle. She stated while backing up she did not see vehicle 2 and struck vehicle 2 in the front bumper. Driver 1 did not report any injuries on scene. Vehicle 1 had no visible damage and was driven from the scene.

Driver of vehicle 2 stated she was not in the vehicle at the time of the collision. There was one occupant seated in the rear passenger side seat who did not report injuries on scene. Vehicle 2 had minor front end damage and was driven from the scene.

I find driver 1 to be at fault for the collision based on statements and corresponding damage. See diagram for further details. BWC was activated during investigation.
