145. Crash Description/Narrative

Vehicle #1 was on Post Road approaching the intersection at Route 88 to make a left turn. While making the left turn, Vehicle #1 began hydroplaning and sliding across the roadway. As a result, Vehicle #1 ran off of the roadway and struck the curb with the front left tire. Vehicle #1 then continued up onto the sidewalk before coming to rest halfway back onto the right Westbound lane of Route 88.

Driver #1 advised that the light turned yellow just as she was about to enter the intersection to make the left turn onto Route 88. Driver #1 stated she accelerated to try and make the light, and in doing so Vehicle #1 began hydroplaning due to the wet roadway and she lost control as Vehicle #1 slid across the roadway and up over the curb. Both passengers confirmed what Driver #1 stated. The front axle and rotor of the front right tire appeared to be broken as a result of striking the curb, and Vehicle #1 was unable to be moved without a tow truck.

Based upon my observations, and statements made by all parties, I find the wet roadway conditions and Driver #1's unsafe speed to be the cause of the accident.
