145. Crash Description/Narrative

Investigation revealed that vehicle one was traveling eastbound on State Highway 70, in the middle lane, directly behind vehicle two. The traffic signal at the State Highway 88 intersection was signaling a red light, so both vehicles came to a stop in traffic. Vehicle one started moving forward while vehicle two remained stopped, and the front end of vehicle one struck the rear end of vehicle two. Prior to my arrival, both vehicles where moved off the roadway into the parking lot of 909 State Highway 70 (Dunkin' Donuts). Neither vehicle sustained damage that required a tow, and first aid was not requested by any person involved.

Driver one stated she was traveling eastbound on State Highway 70, in the middle lane. As driver one approached the State Highway 88 intersection, she came to a complete stop directly behind vehicle two because the traffic signal was red. While stopped, driver one was unable to see the traffic signal due to the sun glare. Driver one observed other vehicles to her right start moving forward, so she assumed the traffic signal was green. Not realizing vehicle two was still stopped, driver one started travelling forward and the front end of her vehicle struck the rear end of vehicle two.

Driver two stated she was traveling eastbound on State Highway 70, in the middle lane. Driver two came to a complete stop in traffic as she approached the State Highway 88 intersection because the traffic signal was red. While stopped in traffic, vehicle one struck the rear end of vehicle two.

145 Crash Description

Vehicle one sustained minor scratches and dents to the middle of its front bumper. Vehicle two sustained minor scratches and dents to the middle of its rear bumper.

Based on my investigation, I believe driver one is at fault because even though there was a sun glare, she was traveling too closely behind vehicle two. By following too closely, driver one did not give herself a safe amount of distance to react, especially when the sun glare was disrupting her vision.
