145. Crash Description/Narrative

My investigation revealed the following:

Vehicle 1 was on the ramp from Route 70 East to Olden St. Vehicle 2 was on the same ramp and pulled up next to vehicle 1. Vehicle 1 and 2 had just nearly collided on Route 70 as vehicle 2 was attempting to change lanes.

When driver 2 pulled next to vehicle 1 she gave the driver the finger because of the prior incident. Driver 1 then intentionally crashed his vehicle into vehicle 2 causing paint transfer and a dent. Driver 1 left the scene of the crash. Driver 2 was able to take a picture of the license plate on vehicle 1. I was able to locate vehicle 1 and driver 1 at his home after the crash had occurred.

As we approached driver 1 at home he stated that he knew why we were there. Driver 1 stated that he was on the ramp from Route 70 to Olden St. when driver 2 pulled up next to him and started screaming and cursing at him.

Driver 1 stated driver 2 intentionally crashed her vehicle into his and folded his passenger side mirror in. He stated driver 2 did this by accelerating forward into his vehicle. He did not report the incident because the passenger side of the car was already damaged from other incidents and he left to go to get food.

145 Crash Description

Driver 2 stated she was attempting to change lanes on route 70 to the ramp for Olden St. She checked her mirror and did not see anyone there. As she began to change lanes she looked again and observed a blue car traveling at a high rate of speed coming up on her right. She swerved back into the original lane to avoid a crash. Driver 2 then changed lanes and continued on the ramp. She pulled to the right side of vehicle 1 and gave him the finger because she believed he was driving in an unsafe manner. When she did this driver 1 began screaming at her. She could not make out what he was saying because she did not roll down her window. She observed the driver to be a young male. Driver 2 stated as traffic began to move driver 1 intentionally crashed his vehicle into hers by accelerating forward and turning to the right. He then left the area. As he was driving away she was able to take a picture of his license plate.

Driver 1 stated that when vehicle 2 accelerated forward to hit his the passenger side mirror folded in towards the rear of the vehicle. If this had occurred the passenger side mirror would have folded forward towards the front of the vehicle. Vehicle 1 accelerating forward and crashing into vehicle 2 would have caused the mirror to have folded back towards the rear of the vehicle as driver 1 had stated.

Based upon these circumstances I find driver 1 to be at fault for the crash.
