145. Crash Description/Narrative

- Vehicle 1 was traveling west on Route 88 approaching the intersection with Jack Martin Boulevard.
- Vehicle 2 was stopped on Route 88 east in the intersection, waiting to make a left turn onto Jack Martin Boulevard when the traffic signal cycled from green to amber.
- As Vehicle 2 began to make the left turn, Vehicle 1 continued through the intersection and impacted Vehicle 2.
- Based on initial reports and roadway evidence, it appears that Vehicle 1 was down and sliding through the intersection prior to the impact with Vehicle 2.
- As a result of the crash, the Driver of Vehicle 1 was ejected from the motorcycle and landed approximately 42 from initial impact with Vehicle 2 in the westbound lane of Route 88.
- The Driver of Vehicle 1 continued to roll on the pavement for an additional 61 before coming to final rest.
- Vehicle 2 came to final rest in the intersection approximately 5 after initial impact with Vehicle 1.
- The Driver of Vehicle 1 was transported to Jersey Shore University Medical Center-Neptune, NJ, by the Brick Township Police Departments Emergency Medical Services along with MONOC Paramedics. The Driver of Vehicle 1 suffered head and chest injuries.

New Jersey Police Crash Investigation Report

Motor Vehicle Crash Description

Police Dept: Brick Police Code: 01Station: — Case No: 2018-00065708

145 Crash Description

The Driver of Vehicle 2 stated the following:

- She was stopped behind another vehicle in the intersection that was waiting to make a left turn onto Jack Martin Boulevard. She was also in the intersection waiting to make the left turn, when the light turned yellow.
- She stated her turn signal was activated.
- After the vehicle in front of her made the left turn, a vehicle traveling west on Route 88 began to make a right turn onto Jack Martin Boulevard.
- With the signal still yellow, she began to make her turn as the vehicle making the right had started turning.
- She then observed Vehicle 1 going around the left side of the vehicle making the right turn on and proceed into the intersection.
- She did not see if Vehicle 1 was upright when the two collided.

The Passenger in Vehicle 2 had the same accounts of the crash as the Driver of Vehicle 2.

Witness to the crash stated the following:

- Vehicle 2 was stopped in front of him and the light was green.
- It appeared she was going to go around the vehicle in front of hers because she was off to the right; however she did not go around.
- The light then turned yellow.
- At the last second, she turned her left signal on and made a left turn.
- She caught the motorcycle going straight through the yellow light.

Ptl. Donnelly 212 and I responded to Jersey Shore University Medical Center to speak with the Driver of Vehicle 1.

The Driver of Vehicle 1 was alert and conscious. The Driver of Vehicle 1 stated he was just out for a ride and does not recall any events surrounding the crash.

Based on my investigation of all known facts and evidence it is my opinion that both Drivers contributed to the crash.

- The traffic signal cycled to amber while Vehicle 2 was in the intersection. It appears that the Driver of Vehicle 1 attempted to beat the traffic signal before cycling to red and improperly passed a vehicle that was turning right. Based on the road evidence, the Driver of Vehicle 1 should have been capable of slowing down and stopping safely when the light cycled to amber.
- Although the Driver of Vehicle 2 was in the intersection prior to the signal cycling to amber, Driver 1 has
