145. Crash Description/Narrative

Upon our arrival the rear of Vehicle #1 was touching the front of Vehicle #2 while both vehicles were attempting to find an available parking spot.

Driver of Vehicle #1 stated he was debating about parking in the parking spot that he had already passed or continue forward and park in the spot available ahead of him. He stated he was only stopped for two seconds before he was rear ended from behind.

Driver of Vehicle #2 stated she was waiting for Vehicle #1 to make decision on where to park for approximately 30 seconds. At that time Vehicle #1 backed up and collided with the front of her vehicle.

A check of the area was negative for any surveillance cameras and based on both drivers statements, I was unable to determine which vehicle was at fault for the crash.
