145. Crash Description/Narrative

Crash occurred on RT 70 eastbound, approximately 500 feet west of the intersection of Princeton Ave.

Driver #2 stated he was traveling east on RT 70 in the right travel lane (3rd straight lane), next to vehicle #1.

While driving, he advised vehicle #1 began to change lanes, into his lane, so he swerved to the right to avoid being struck; however he could only move over a little bit due to traffic and was subsequently struck by vehicle #1.

Driver #1 advised he was traveling east on RT 70 in the middle travel lane (2nd straight lane), next to vehicle #2. He stated he changed lanes and got in front of vehicle #2 in anticipation of moving over further. He advised that once he got in front of vehicle #2, driver #2 changed lanes, accelerated past him and attempted to cut back into the lane, subsequently striking his vehicle.

The occupants of both vehicles advised they were not injured.

Based on the driver's statements, coinciding damage and lack of an independent witnesses, I am unable to determine

145 Crash Description

who is at fault. Both versions of accounts are plausible and the damage would be the same regardless of who truly was at fault.

It should be noted that several juvenile passengers in vehicle #1 were not properly secured in car seats and/or booster seats. The driver was made aware of this and was advised to leave the vehicle parked until the proper restraints could be obtained.
