145. Crash Description/Narrative

Crash investigation reveals a two vehicle, same direction (Rear-End) crash. Vehicle 2 was on Route 88 E stopped for a red traffic signal located at Route 88/Van Zile Road. Vehicle 1 was stopped directly behind vehicle 2 at said intersection.

As both vehicles were stopped, the driver of vehicle 1 reported that his vehicle's engine RPM's began increasing while his foot was on the brake pedal. According to the driver of vehicle 1, the vehicle's RPM levels became so high that the vehicle traveled forward with his foot still on the brake. As a result, the front end of vehicle 1 crashed into the rear of vehicle 2. The driver of vehicle 1 reported that transmission work was done to his vehicle and that he had just picked up the vehicle from a local transmission repair shop. The driver of vehicle 2 reported that she heard vehicle 1's tires squealing/screeching while it was stopped behind her at said intersection.

The driver of vehicle 1 is at fault for the crash due to mechanical issues to his vehicle. No injuries were reported and both vehicle sustained minor damage.
