CERTIFICATION IN LIEU OF OATH

I. **OWNER SECTION** (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 45:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☐ Building C.2. ☐ Fire Protection

I further certify that I will perform the following work:

C.3. ☐ Electrical C.4. ☐ Plumbing

D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature _____

Date _____

II. **AGENT SECTION** (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

☒ Check if contractor.

HOMEOWNER'S POOL CERTIFICATION

FENCE REQUIREMENTS:

Outdoor private swimming pool: An outdoor private swimming pool, includes an in-ground, above-ground or on-ground pool, hot tub or spa shall comply with the following.

1. The top of the barrier shall be at least 48 inches above finished ground level measured on the side of the barrier which faces away from the swimming pool. The maximum vertical clearance between finished ground level and the barrier shall be 2 inches measured on the side of the barrier which faces away from the swimming pool. Where the top of the pool structure is above finished ground level, such as an above-ground pool, the barrier shall be at finished ground level, such as the pool structure, or shall be mounted on top of the pool structure. Where the barrier is mounted on the pool structure, the opening between the top surface of the pool frame and the bottom of the barrier shall not allow passage of a 4 inch diameter sphere.
2. Openings in the barrier shall not allow passage of a 4 inch diameter sphere.
3. Solid barriers shall not contain indentations or protrusions except for normal construction tolerances and tooled masonry joints.
4. Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is less than 45 inches, the horizontal members shall be located on the swimming pool side of the fence. Spacing between vertical members shall not exceed 1 1/4 inches in width. Decorative cutouts shall not exceed 1 1/4 inches in width.
5. Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is 45 inches or more, spacing between vertical members shall not exceed 4 inches. Decorative cutouts shall not exceed 1 1/4 inches in width.
6. Maximum mesh size for chain link fences shall be a 1 1/4 inch square unless the fence is provided with slats fastened at the top or the bottom which reduce the openings to not more than 1 1/4 inches.
7. Where the barrier is composed of diagonal members, such as a lattice fence, the maximum opening formed by the diagonal members shall be not more than 1 1/4 inches.
8. Access gates shall comply with the requirements of items 1 through 7, and shall be equipped to accommodate a locking device. Pedestrian access gates shall open outwards away from the pool and shall be self-closing and have a self-latching device. Gates other than pedestrian access gates shall have a self-latching device. Where the release mechanism of the self-latching device is located less than 54 inches from the bottom of the gate: (a) the release mechanism shall be located on the pool side of the gate at least 3 inches below the top of the gate and; (b) the gate and barrier shall not have an opening greater than 1/2 inch within 18 inches of the release mechanism.

BLOCK: 901.23 LOT: 2.01 ADDRESS: 310 AMACHE LN.

In accordance with the NJAC 5:23-2.23, no pool shall be used in whole or in part until a Certificate of Approval has been issued by the Construction Official.

I certify that I am the owner of the above referenced pool being built. I further certify that the pool will not be used in whole or in part until a permanent fence is installed and a Certificate of Approval has been issued by the Construction Official.

I have read the fence requirements listed above and understand them.

STATE OF NEW JERSEY

MY COMMISSION EXPIRES DECEMBER 11, 2007

Township of Brick Zoning Permit

Approved: Tuesday, April 06, 2004 Number: 415

Block 901.23 Lot 2.01 Zone: R-7.5

Property Address: 310 Apache Lane

Applicant: Matthew Kielt

Property Owner: Matthew Kielt

Existing Use: Single Family Residential

Proposed Use: Single Family Residential

Proposed Construction: Above ground swimming pool 15' x 21'.

Conditions: The swimming pool must be set back at least 5 feet from the side and rear property lines.

This permit shall be null, void and of no effect if any of the facts contained in the application upon the basis that this permit was granted are false or untrue in any material respect. This permit shall expire one (1) year after the date of issuance if the use or substantial construction has not been commenced.

request to be exempt from the plot plan requirement for an addition, fence, shed, deck, pool, retaining wall, ect. as outlined in the Brick Land Use Book Chapter 190.31, Part B.

Applicant's Signature

The following shall be submitted with this request:

1. Submit surveys locating existing dwelling and proposed addition. Dimensions of the addition should be included.
2. Proof that the property is not located in a Flood Hazard Area.

Note: Prior to approval a site inspection by the Engineering Department will be performed to verify that the proposed addition will not create a drainage problem.

FOR OFFICE USE ONLY

Approved on: 4/7/04

Comments: _____

FOR ALL PERMITS AFFECTING A RESIDENTIAL STRUCTURE
(REGARDLESS IF A FIRE PERMIT IS REQUIRED) A MINIMUM OF 1 (ONE)
BATTERY OPERATED OR ELECTRIC SMOKE DETECTOR IS REQUIRED
ON EACH LEVEL AND IN THE VICINITY OF THE SLEEPING ROOMS. AS
OF APRIL 7, 2003 THE STATE OF NJ REQUIRES THE INSTALLATION OF
AT LEAST 1 (ONE) CARBON MONOXIDE DETECTOR IN THE VICINITY OF
ALL SLEEPING ROOMS. THIS APPLIES TO ALL DWELLING UNITS
CONTAINING A FUEL BURNING APPLIANCE OR ATTACHED GARAGE.

For work not requiring a fire inspection for fire alarms in accordance with the code,
homeowners or their agents (contractors) shall be required to confirm the
installation of these devices. This may be done by signing the below affidavit in lieu
of an inspection.

*****PLEASE READ AND SIGN*****

I hereby certify that a minimum of one smoke detector is installed and is operational on each level of this residential structure in the immediate
vicinity of the sleeping rooms. I further certify that a minimum of one carbon monoxide detector is installed and operational in the vicinity of the
sleeping rooms. Also, I understand that failure to install and maintain these devices in an operational condition is a violation of the New Jersey
Administrative Code 5:23 and may subject me to penalties as prescribed by law.

design innovations...

Until a few years ago, Swim'n Play, Inc. held the exclusive rights to our revolutionary space saver pool design. Since then, many manufacturers have attempted to duplicate our space saver pool design, but none could improve upon the original. Swim'n Play, Inc.'s space saver pools remain the finest, most durable pools of their kind available today.

One of the advantages of the space saver pool design, is that it eliminates the need for side supports like those found on oval buttress pools, and therefore requires less square footage for installation. The result is a line of beautiful pools designed to fit in almost any backyard, the Lexington Space Saver Oval (page 6), and our most popular pool, the Atlantic Beach Space Saver Oval (this page).

Swim'n Play, Inc. and Branch Brook Company also offer the Atlantic Beach (this page), and the Delmar II (not shown) in a oval non-buttress pool design with a 52" wall height. Sizes for the Atlantic Beach are: 18' x 12', 24' x 12', 24' x 15', 30' x 15', and 33' x 18'.

Sizes for the Delmar II are: 24' x 12', 24' x 15', and 30' x 15'.

We also offer some of our more popular models in a buttress-style pool. The buttress pool is available in the following sizes: 18' x 12', 24' x 12', 24' x 15', 30' x 15', 33' x 18', and 45' x 18'.

Oval Non-Buttress pool

Space Saver Oval pool

It's what you don't see that makes a

features...

Patented Four-Bar Wall Closure

The greatest stress on any above-ground pool occurs at the wall joint. A weak wall joint will compromise the strength and stability of the pool wall, and is likely to cause damage to the pool over time.

All Swim'n Play, Inc. pools feature our patented Four Bar Wall Closure (U.S. Patent

#4223498). This exclusively designed closure system uses two extruded aluminum bars on each end of the pool wall (fig. a). The closure is then secured with 27 strategically positioned bolts on a 48" pool, and 31 bolts on a 52" pool, insuring proper assembly and maximum stability.

In comparison, most pool manufacturers use only one bar on each end of the pool wall (fig.b) and 25 bolts to form the wall joint.

Fig. a

Fig. b

Universal Top and Bottom Rails

All Swim'n Play, Inc. pools feature rectangular top and bottom rails which fit securely into the upper and lower vertical plates, forming an extremely sturdy Posi-Lock construction.

Galvanization

Galvanization is a process in which our steel pools are Hot-Dipped with a protective coating of Zinc. Zinc is a useful rust-proofing element due to its unusual ability to bleed into a scratch on any steel

surface, protecting the raw steel from oxidation. The amount of Zinc applied to pool walls and frames varies from pool to pool.

The galvanization treatment is rated numerically according to the amount of Zinc added to each square foot of surface area. For example, a G-60 rated pool contains .6 ounces of Zinc per square foot; a G-90 rated pool contains .9 ounces of Zinc per square foot. All pools sold by Branch Brook Company have at least a G-90 rating, and many of our models boast a G-115 rating (one of the highest ratings in the pool industry), containing 1.15 ounces of Zinc per square foot.

The Atlantic Beach, Swim'n Play's premiere steel pool. For more information, see page 9.

*Indicates Operation in
High-Speed Mode

2-speed pumps

You can now customize your filter operation and save money!

Use high speed for vacuuming, water problems, and adding chemicals, or switch to low speed for continuous filtration and circulation. Normal pumps run only at high speed (3450 RPM), drawing 1903 watts. By running in low-speed mode (1725 RPM) and drawing only 334 watts, two-speed pumps can save up to 55% off electrical costs.

Two-speed pumps are designed for continuous filtration; this improved filtration and circulation,

also reduces the chemical costs by cutting down on

chemical usage. The result is a cleaner pool for less money!

Energy Cost Comparison

Single Speed Pump Running for 10 Hours

1903 watts = 20.9 cents per hour*

20.9 cents per hour x 10 hours = \$2.09 per day

\$2.09 per day x 30 days = \$62.70 per month

Two-Speed Pump Running for 24 Hours

(on Low)

334 watts = 3.67 cents per hour*

3.67 cents per hour x 24 hours = 88¢ per day

88¢ per day x 30 days = \$26.40 per month

Savings = \$36.30 per Month

Solar Heating System

Put the power of the sun to work for you! The solar panel pool heaters use your pool's existing pool pump to circulate water through a solar collector to heat your pool. You can see the black rectangular shape (photo at left) of the solar collector lying beside the pool as shown. Now you can enjoy a warm dip in your pool whenever you like while saving on energy costs at the same time!

Solar Covers

The solar cover is an expanse of durable plastic material covered with small air bubbles which you pull across the surface of your pool. The air within the bubbles is then superheated by the sun's rays, and the captured heat is, in turn, radiated into the pool water. The plastic material of the cover also helps keep the heat from escaping. A properly used solar cover can raise the water temperature 8 to 10 degrees! All covers are cut to fit various pool sizes, eliminating the need for trimming. Available in round, oval, and rectangular sizes.

MiniMax™ Plus Heater

Don't let a little chill in the air stop you from enjoying that early-morning or late-night swim. PacFab Inc.'s MiniMax™ Plus heaters utilize the most advanced heating technology available to provide the latest in comfort, efficiency and durability. PacFab's stainless steel burners

deliver even flame distribution and long lasting, corrosion-free operation. Patented Bronze Inverted Header and Quick-Flange allows direct PVC pipe connection and eliminates the need for costly heat sinks. Also, with the balanced flue stackless top, there is no need for high wind stacks.

The new MiniMax™ Plus 100M and other sizes are now available at an affordable price.

heating pumps

Branch Brook Company now carries a line of heat pumps for your above ground pools. The heaters utilize the free heat from the ambient air and transfer it to the water. These heat pumps are simple and economical to operate. Easy installation and servicing using accessible electrical controls, maintenance-free, economical and environmentally friendly.
