Sequel II™ with Pool Power Pak[®] II — Program One™ makes it easy to program separate filter cycles throughout the day. This allows for more efficient filtering action by extending the backwashing intervals, the time between filter cleanings. Efficiency is enhanced when the initial filter cycle is completed and the Diatomaceous Earth (DE) releases and settles to the bottom of the filter tank. This way, when the next filter cycle begins, the DE is regenerated and recoats the filter grids. The result is a cleaner and more productive filtering area. This means less frequent backwashing is necessary for crystal clear water.

This highly advanced filtration system includes Pool Power Pak[®] II — Program One™ which utilizes a sophisticated, but simple-to-program, electronic timer with L.E.D. digital display. Simply set the easy-to-read programming keys to program your filter cycles in advance.

Sparkling water is easily obtained with the Sequel II™ tank unit. That's because precision engineering and easy operation blend to give you superior filtration with minimal effort.

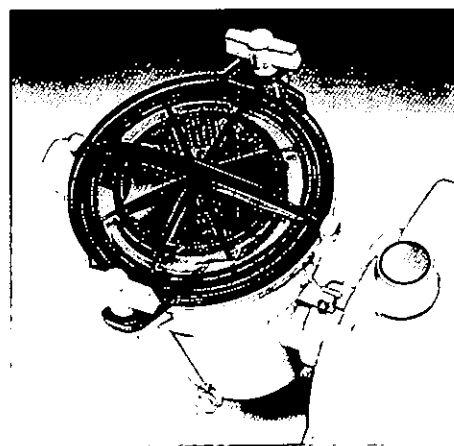

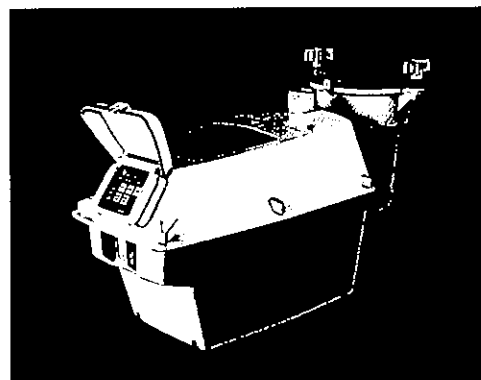

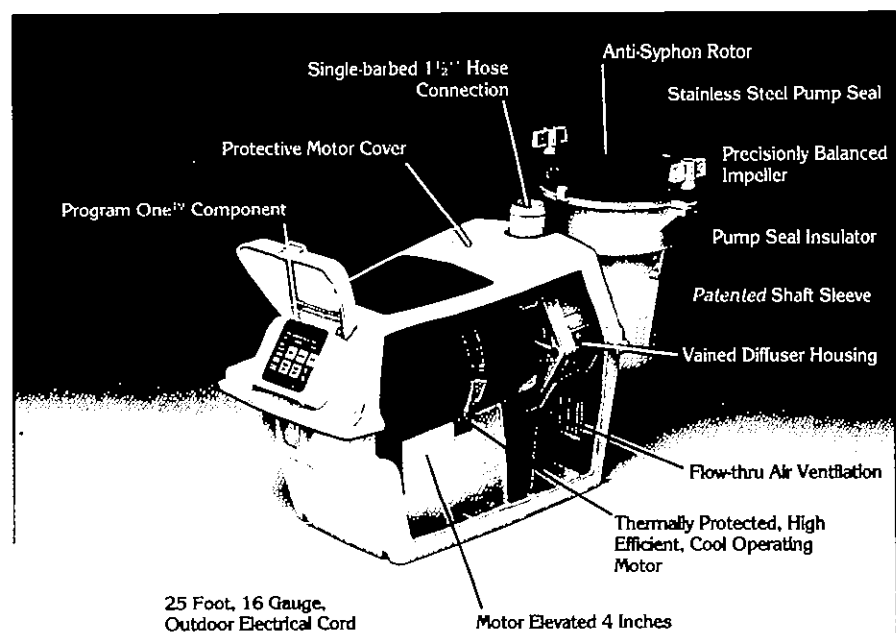

- **Tough, abrasion-resistant Cycloc[®] construction**
- **V-Grid design** for balanced flow during filter and backwash. *Another Doughboy exclusive.*
- **20 Sq. Ft. of filtering area**
- **Permanently encapsulated filtering grid ends.** No stitching. No threads. No exposed ends for longer life and less maintenance. *A Doughboy exclusive.*
- **Six position rotary valve:** Filter, Backwash, Recirculate, Pump-to-Waste, Filter-to-Waste, Winterize
- **Distinctively styled leather-grained selector handle** for ease of operation.
- **See-thru waste port with drain cap**
- **Pressure gauge** to indicate when filter needs cleaning
- **Domed cover tank** has 1/2" thick flanges for maximum strength
- **Internal automatic self-cleaning air relief system**
- **One piece tank cover and valve assembly** for convenient serviceability
- **Grid assembly base** protects grids while servicing
- **Single-barbed 1 1/2" hose adaptor** for positive hose seal
- **Tank "O" Ring**, for positive seal
- **Recessed tank drain plug** with screen.
- **Curved tank bottom** for complete drainage
- **Reinforced filter base** is molded into tank

Pool Power Pak® II – Program One™

Doughboy brings advanced technology to your fingertips with Pool Power Pak® II – Program One™, our new, fully programmable pump unit. This sophisticated pump is thermally protected and self-priming. Extremely rugged, top grade engineering materials are utilized to assure long term performance and dependability. Superior impeller efficiency insures a cooler and quieter pump unit. A unique anti-syphon rotor significantly reduces backflow from the pool when the Strainer Assembly lid is removed – a Doughboy exclusive.

Features:

Program One™ Component:

- State-of-the-art L.E.D. (Light Emitting Diode) digital display
- Easy-to-read programming keys with "Tactile Feel," an embossed, snap-action, touch-sensitive pad for easy operation
- Capabilities for multiple program options
- Lexan® keypad assembly for maximum durability
- Conformal coating to insulate circuitry and provide water and vibration resistance
- Protective, snap-lock cover to safeguard timer from weather elements and ultraviolet rays
- Inductive load timer module custom matched to specifications on Pool Power Pak® II. Protects against electrical surges
- Convenient **MANUAL** and **CLEAR** settings
- Power surge protection
- Complies with FCC rules for Class B consumer computing device
- Precision balanced impeller for highest pumping efficiency and longer motor bearing life. A *Doughboy exclusive*
- Anti-syphon rotor significantly reduces back flow from pool when removing interlocking lid

- Patented shaft sleeve design insulates motor shaft from water
- Pump seal insulator protects pump against extreme heat if pump runs dry
- Thermally protected, highly efficient, cool operating motor for longer life
- Stainless steel pump seal
- Flow-thru air ventilation for cool running motor
- Protective motor cover can easily be removed for service
- Clear, see-thru lid to determine when to clean strainer basket
- Tough, chemical-resistant, large capacity strainer basket
- Winterizing drain plug on pump and strainer assembly
- Single-barbed 1 1/2" hose adaptor for positive hose seal
- Stainless steel hardware

IMPORTANT! Mis-use of your pool can result in permanent physical injury or even death. Do not jump or dive! Do not use slides, diving boards, or any other platform or object which can be used for improper pool entry! Use only a *proper pool ladder* to enter or exit your pool and always obey all safety rules. Remember, pool safety is everybody's responsibility.

Doughboy Recreational is in no way affiliated with any professional pool installer. Therefore, Doughboy can assume no responsibility for errors in installation by the homeowner or said professional installer. If you have the pool installed by others, please supervise to be sure they comply with proper installation techniques as shown.
