RE: **Freshwater Wetlands Statewide General Permit No. 7 and Water Quality Certification**

DLUR File No.: 1223-05-0002.2, FWW090001

Applicant Name: Jads Construction Co.

Block: 284 Lots: 21 & 12

Borough of South River, Middlesex County

Dear Mr. Tareila:

The Division of Land Use Regulation has reviewed the referenced application pursuant to the requirements of the Freshwater Wetlands Protection Act Rules at N.J.A.C. 7:7A. The proposal to pipe a wetlands ditch is authorized by a Statewide General Permit #7, which authorizes activities in freshwater wetlands that are human-made ditches or in freshwater wetlands that are swales.

Limit of Authorized Disturbance

Based on the approved plan entitled "PLAN OF SURVEY, ANTONIO & ROSA SOARES, BOROUGH OF SOUTH RIVER, MIDDLESEX COUNTY, NEW JERSEY, BLOCK 284 LOTS 12 & 21, CERTIFICATE #@4GA27940000", dated December 10, 2003, last revised August 12, 2009, and prepared by Brunswick Surveying Incorporated, the authorized activity involves the disturbance of **0.012 acres** of ordinary resource value wetlands for the construction of a pipe, via a Statewide General Permit #7.

Permit Conditions

In addition to the standard conditions noted at N.J.A.C. 7:7A-5.7, the following special conditions must be met for the activities authorized under Statewide General Permit #7. Failure to comply with these conditions shall constitute a violation of the Freshwater Wetlands Protection Act (N.J.S.A. 13:9B-1 et seq.).
