May 26, 2020 11:43	Spoke to the property owner who stated he is looking to build on the vacant parcel. He also stated due to his poor health he did not cut the rear yard. I advised him that the grass requires maintaining and he should get estimates for painting. He stated he was unaware that painting could be done due to virus. I advised him Roofs and painting could be done. He will make effort to cut grass and keep this office informed in the progress to building the modular on the vacant lot. Yes

Thank you for noticing and commenting on progress! I am resolved to do what is necessary and I appreciate your willingness to collaborate on timeframes.

Hopefully you've also noticed that I've removed the Virginia ivy from the front and side of the house and have begun trimming the hedges and bushes. Obviously this is needed in and of itself, but it is also a necessary prerequisite to be able to access the clapboard for painting. Once I can provide that access, which I expect will be complete this weekend, then work can commence on the painting.

I still have to settle on a roofing contractor and specs and so a timeframe in that area will be forthcoming - hopefully next week to lock in contracts and dates.

Timing-wise I have a Board meeting to wrap up this week and new product launches early next, but I've requested time off for the latter half of next week to better focus on these responsibilities.

Best regards,
Tony

Mr. Bauer,

Thank you for communicating your intentions to comply with the standards. Although you have presented steps in the right direction, no specific timeline for completion had been noted.

I will provide you with an extension of October 31, 2020 to have completed all that is required. I believe this give you more than enough time for all the work that is needed to be complete.

Regards,
Leon Portine

The dwelling was removed in 2019 with a Construction Permit 2019-70864. The frontage on Ashwood Ave. is the only portion of the property required to be maintained. There is fencing that separates the construction area and the area fronting Ashwood Ave. No further action towards City Standards are required.

Dead Tree on Private Property, Debris, Grass Overgrown

Please describe your issue(s), including location:
The property has not been maintained from grass, shrubs, etc. overgrowth. MORE IMPORTANT is that there is a 150 ft maple tree that is dead and leaning to one side at the edge of the driveway. This weekend, FOR A THIRD TIME, a large branch broke off and fell across the power line to the neighbor...this then pulled hard on MY power line and ripped the buckle out of the house and damaged the electric service masthead/pole. The tree is a major concern based on its massive size and being dead during these strong storms with heavy rains and wind. Some town assistance would be appreciated.

August 05, 2020 09:40	Yes	Good morning Leon, So, my speaking to my mother did not go well. Barbara also tried to speak to her and that also did not go well. On Saturday my husband went down to cut the lawn. He was not well received until he told her he was there to cut the lawn. He ended up speaking with for about 30 minutes. She made it quite clear she does not want anyone on the property. I've tried to call her, but now she won't answer the phone. Barbara and I have had quite a few lengthy conversations about this. We have problems with my mother for years. She did not treat my grandmother well when she was alive and every time we tried to help she cut us down. Dealing with my mother is mentally and physically exhausting. [REDACTED] [REDACTED] Barbara was trying to help my grandmother and my mother didn't like it. Barbara signed a complaint against her and then the police had a screener come out. [REDACTED] [REDACTED] I have also spoken to my sister Jeanne. My mother and Jeanne are very close. When I spoke to Jeanne on the phone about this situation it sounded like she was willing to help. However, that is not the case. So once again we are not speaking. Barbara and I decided maybe the best thing to happen to her is to go to court. Maybe then the judge will be able to do something. You need to present the letter she sent you to the judge. I understand that it's going to end up costing my mother a lot of money. But I have to tell you this is exhausting. I figured out a long time ago that you can't help someone that doesn't want it. The problems with my mother have been going on for too many years. Thank you for trying help. Barbara and I appreciate it. Hopefully when she goes to court they'll be able to do something. Sincerely, Patty Herzog	DCS - Property Maintenance Inspector - L

Good Morning,

Nikki Moore

Attached are the pictures before & after this morning's garbage pick up from 789 Springfield Avenue. This is utterly out of control because this is directly outside of my front door at 785 Springfield Avenue, Unit 9 in Summit. The smell of garbage and the insects & rodents are out of control at this point. I cannot enter my home without insects entering my home. My family & I cannot open our windows for fresh air due to the stench of garbage. My 5 year old cannot play outside due to insects, rodents & the smell. I'm requesting for the dumpsters/oil bins be moved across the parking lot, away from homes. PLEASE, look into this matter immediately. Thank you.

August 26, 2020 09:14	Yes	Regarding 104 Beekman Rd, on behalf of my mother I will call the contractor who did the last property clean up and if he can add us for weekly lawn maintenance as well. Ongoing, we are hoping to sell the property this fall. I will email you with the property maintenance details as soon as I talk to the contractors and get commitments from them. In the meantime, I was just laid off from my job in PA and have already cut the grass but discovered the hot water heater had burst so I will be back up in Summit to do what I can personally to get the front of the property this week. Hopefully, I will hear from the landscaping contractors today or tomorrow.	DCS - Property Maintenance Inspector - L
