			Lou: [REDACTED] 201 261 2800 I'm reaching out to you for advice on how to handle this situation. I live next to an empty home located at 651 Paramus Road in Paramus that I believe is still owned by Children's Aid and Family Services (office located on Robin Road in Paramus) and noticed a sickening smell this morning near the property. I did some looking around and noticed the carcass of a dead deer under the fire escape stairs on the south side of the house. Since the house is empty, there is nobody there to speak to. The property has been vacant for two years and while we received a notice about a year ago stating the house was to be torn down, to date nothing has happened. Would you possibly be able to help get the carcass removed before scavenging animals start tearing it apart or make a suggestion who I could contact that might be able to help? I did call the Children's Aid main number this evening at 201 261 2800 and left a message about the issue with their facilities department, but thought I would reach out to you as well.
