This is the 2nd or 3rd time for this. The scraggly, overgrown, weed-like looking "tree" needs to be cut back MEANINGFULLY or removed. It severely obstructs the sidewalk from the side and from above. This is very dangerous as it forces you to veer close to the street when passing - its especially dangerous when walking towards town with kids.

SUMMARY & DESCRIPTION

Residential Property Maintenance Issues

This is the 2nd or 3rd time for this. The scraggly, overgrown, weed-like looking "tree" needs to be cut back MEANINGFULLY or removed. It severely obstructs the sidewalk from the side and from above. This is very dangerous as it forces you to veer close to the street when passing - its especially dangerous when walking towards town with kids.

390 Morris Avenue, Morris Glenn Condos. cut branches from trees on 6 Edgar and 8 Edgar Street The President and Vice Chair of the Condo Association came over before cutting down the branches indicated they would clear the moss from the roof paint the wood on the garage fix the whole in the wall of the garage, remove graffiti and remove tree roots sticking out. This effects my yard and our enjoyment of being out doors. The two association members came to 6 Edgar Street twice promising this would be done and now they are ignoring me. The Condo association through the Progressive Management Company painted all the trim for the condos. replaced all the wood for the garage in the front only not the back and put a new roof on half of the garage. The back of their property needs to be maintained also. Please visit the site. Thank you

The neighbor next door is trying to sell the home, parent deceased. Stated that they already have reached out to the homeowner to clean up to no avail. The realtor suggested she contact the City because prospective buyers are questioning the condition of 146 Passaic Ave.

House does not appear to be in disrepair. Could not see junk from street. If in rear of property need access to a more visible area or permission from property owner to walk around property. At this time a spring cleaning will be required at some point. From street could not confirm all concerns and nothing appears in violation at this time.

03/27/2019 09:31AM Trees along this creek need to be removed and the water bed needs to be cleaned to prevent flash flooding. Nothing has been done to maintain this creek in the 32 years that we have lived here and we are subject to repeated flooded due to lack of maintenance! This is a class A flood zone and we all pay flood insurance premiums because this the City will not clean and improve the drainage! This means thousands of dollars in flood insurance premiums each year.
