I will sign the petition but we need to get the parents from every school to go in and take down all this garbage. It has to be done, its not going away even when the new elected board members get in unless they are fearless and demand if they are the majority to get these out of the schools all schools in the state. Its not enough to just talk without action. I will help, even if I get arrested, don't care, will do it. We have to send a message.

Embarassing

To rduff@northhanoverwp.com

I am a retired police officer. You should not be interfering with how parents raise concern about their kids. You take an oath to defend a constitution. You are not the arbiter of political correctness on Facebook. Police officers on the street need public support. They don't need a politician as a police chief. There was nothing threatening in the post. If you felt it was threatening you should have written a report and sent it to the prosecutor for review or charging.

I can't ever remember a course in the police academy dealing with monitoring Facebook Posts. You jumped the gun. Officers need to think critically before they act and if they can't depend on their leader doing it with a minor PTA Facebook page, then they have no leadership in your department.

I encourage you to apologize to the person who posted and to the community as a whole and to let your officers know that you were wrong to put politics into the job.

Thanks and I wish you safety.

To rduff@northhanoverwp.com

I just saw on Tucker Carlson that you instructed that a NJ mom's post on Facebook, that protested the sexualization of her elementary school child, be taken down. When did it become the mission of the local police to tell American citizens what they can & cannot post on Facebook or ANY OTHER MEDIA? Have you heard of the 1st Amendment? The Constitution? You have no jurisdiction to tell us to take down our posts. Why don't you spend your time catching criminals like the ones your prosecutors turn loose & refuse to prosecute. You should resign. You have no business having authority over law abiding citizens. You are a disgrace to honest law enforcement officers.

Chief duff,

Thank you for being so pro active in the protection of our children while they are in school. I know you work closely with the school and it gives me a great deal of security knowing that. I basically live disconnected from social media, when I found out what was going on and then saw for myself on television I was quite concerned. Your men and women do a great job policing our community. I reached out to Dr Patterson and Helen Payne and they assured me everything was ok. They told me everything you do for them. Thank you for always monitoring our streets and working so closely with our schools.

I wanted to express my gratitude for everything you have done for North Hanover and subsequently Northern Burlington. I was very concerned about that public facebook (FB) post. She not only targeted North Hanover but dragged parents from NB into it by including screenshots of our private Northern Burlington Parents FB group that had parents names. I run that group and she even included "the PTSC President" in the comments.

The community may be divided on the issue she had but we should all be on the side of safety for our schools and everyone in them. That information should never have been so publicized. So thank you for making our communities safer.

Kind regards,

This isn't North Korea, despite what you and the other leftists who have infiltrated this government wish. I think it's disgusting and unimaginable that an officer of the law would attempt to pressure someone to remove a post that did not violate the law. You have no right and no business trying to police speech. Im sure you'll pass on my information as part of standard "information sharing" (another bullshit excuse used to intimidate subversives, ie anyone who disagrees with radical sexual and trans indoctrination of small children, anyone who agrees with equality and not equity, etc) but I'm not intimidated. We will not be silenced. We aren't going anywhere and you've only made our resolve to be even more vocal about leftist's grooming of our children even greater.

Did your police chief pressure a mother of a young child to stop complaining about her school trying to teach her child to be a homosexual? I'm a retired federal officer. As I understand it it is illegal to contribute to the delinquency of a minor or to act in a lewd or perverted way towards a minor child. So do you plan on investigating this school for breaking the law? I was under the impression that we lived in the United States not Nazi Germany circa 1939.

harassing women

To rduff@northhanoverwp.com

What is wrong with you? Telling a woman she should censor herself, violating her first amendment rights, because she disagreed with these homosexual groomers who are pushing sex on our children? That's your job now? Let me tell you something, that's not your job. You don't go around harassing women because some jackass from the military told you to, a certain Lt. Col. Christopher Schilling of Joint Base McGuire-Dix-Lakehurst. Both of you are creeps, you know that? Harassing women for these groomers. You're disgusting, you're just as bad as they are because you're not only letting these creeps get away with their shenanigans, you're acting as their personal soldiers, out harassing concerned mothers that are worried about these savage animals harming their children.

Transexuals and gays aren't born, they're recruited. No one cares when adults are gay, but that's not enough for them, that's why they target children. The fact that you defend this via censoring this brave woman means you not only support these pedophiles, you probably are one yourself, you creep.
