By this request, we mean to identify the spreadsheet, database, or other tracking document maintained either by OSEP or the OAL to track, on a case by case basis, compliance with the IDEA's mandate of 45-day case disposition for due process petitions. 34 C.F.R. 300.515(a). The specific information we seek as to each case is (i) the docket number (to permit follow-up requests for additional records, if necessary), (ii) the date the due process petition was received by OSEP, (iii) the date of transmittal to the OAL, (iv) whether the case has any special characteristics (e.g., expedited disciplinary proceedings, actions for emergent relief, etc.), (v) any "specific extensions of time ... [granted] at the request of either party," per 34 C.F.R. 300.515(c), and additionally, if the case has concluded, (vi) the date the final decision was reached, (vii) the date the final decision was mailed to each of the parties, and (viii) whether the case was resolved other than on the merits (e.g., by sufficiency challenge, for failure to appear by either party, by voluntary dismissal, or otherwise). To the extent that this information is not contained in any single document, we request that you generate a report (if you are able) containing the requested information, pursuant to *Paff v. Galloway Twp.*, 229 N.J. 340, 357, 162 A.3d 1046, 1056 (2017) (holding that OPRA permits requests for information, even if not contained in a single document).

All communications (including but not limited to written correspondence and emails) during the same time period, and between OSEP and the federal Department of Education, that attaches, encloses, or refers to New Jersey's compliance with the 45-day deadline contained in 34 C.F.R. 300.515(a), as well as all attachments or enclosures accompanying such communications.

My office represents the interests of a minor in civil litigation involving acts of sexual harassment that took place at Rossi Intermediate School in Vineland, New Jersey. The sexual harassment involved an inappropriate relationship with Rossi Intermediate School teacher, Richard Super. On July 27, 2017 Secretary of the Board, Robert R. Higgins entered an order revoking the teaching certification of Mr. Super.

Pursuant to the New Jersey OPEN PUBLIC RECORDS ACT and the common law RIGHT TO KNOW I am requesting the following documents:

(A) A complete copy of your investigative file relative to Richard Super, Docket Number 1617-171.

(B) A complete copy of all investigative files relative to Vineland Board of Education administrators, teachers, faculty, and staff where it was alleged that there was inappropriate contact or communications with students for the last 10 years.

I greatly appreciate your help and look forward to working with you to resolve this OPRA request. I await your response and welcome any questions.

I am trying to identify any Districts that have not yet met Standard 9, Financial Literacy curriculum and course mandate/requirement. I have been advised by Gov. Requested Information

I request a list of school districts classified as Type I versus Type II districts. I am looking for historical information on which districts have been Type I versus Type II, back to 1970 or the earliest year available. Specifically, I request a separate list of districts for each year from 1970 to 2017. The lists should identify which districts are Type I and which are Type II. Here is some more information about Type I and Type II districts. Title 18a of the New Jersey Legislative Statutes outlines two types of school districts. Title 18A:9-1 reads: "18A:9-1. School districts shall be classified as type I and type II school districts, except that the State board may, by administrative order pursuant to its authority under section 15 of P.L. 1975, c. 212 (C. 18A:7A-15), create a State-operated school district." And Titles 18A:9-2 and 18A:9-3 outline the characteristics of Type I and Type II districts. I am interested in Type I versus Type II because I wish to know which boards are elected and which are appointed over the years. I request this information to be copied and sent to me. However, I may be able to inspect in person if this is required. Thank you in advance for any assistance you can provide.

This is a request under the New Jersey Open Public Records Act.

Specifically, I would like the percentage of LEP (?language English Proficient) children who attend the PreK program for three year olds and four year olds in the Red Bank Borough Public School District for all years since the preK program started in Red Bank. Demographic information by race and income is included in NJSmart data, but LEP data is not. In addition, children who attend PreK 3 or PreK 4 programs run by an outside provider are not included in the NJ DOE enrollment data. So this is the missing piece that I am looking for.

I am seeking data about recipients of the NJ Seal of Biliteracy who graduated in 2016 and 2017. I would like a spreadsheet with each row presenting one recipient with any of the following information that is available listed in columns: (1) high school the recipient graduated from (preferably listed with county, district, and school ID codes), (2) recipient's race/ethnicity, (3) recipient's gender, (4) whether the recipient qualified for free lunch, (5) whether the recipient qualified for reduced price lunch, (6) whether the recipient had ever been classified as Limited English Proficient, (7) the language other than English that the recipient was assessed in to qualify for the Seal of Biliteracy, and (8) the method that was used to assess the recipient's proficiency in the language other than English (e.g., an AP Spanish language and culture test). I will use this data as part of a study on whether the Seal of Biliteracy is serving students who are or have been classified English language learners, students of color, and students from low income families.

Hello, if you would be so kind, could you please send me the grade-by-grade enrollment for New Jersey public schools (including charters) for the most recent year available? I do not need enrollment on a district-by-district basis, but just how many kids are in kindergarten, first grade, second grade, third grade .. twelfth grade for the whole state. If you could send county-by-county breakdowns that would be great, but even getting the statewide data would be great. I could not find this aggregated data in the enrollment files. I know it is available on a district-by-district basis, but not for the state as a whole. Could you send this via email? Very appreciatively, Jeffrey Bennett

The document I am requesting is a 5-page letter issued by the Department of Education's OFAC, dated February 12, 2016, addressed to the Executive Director of the School for Children with Hidden Intelligence in Lakewood, N.J. The letter involves a response to an appeal by David B. Rubin, Esq, who represents the school. The letter includes a response to several findings, including Finding One involving "disallowed salary and fringe costs for additional or unassigned staff members and uncertified personnel." I was the psychologist whose report was relied upon by the OFAC, and the State reversed its findings on the matter in which I weighed in. I am requesting this letter in order to confirm my involvement in the case and the outcome of the appeal.

I am trying to get a hold of the originally submitted and/or approved science curriculum and associated materials from the early 1970's for the State of NJ, specifically the one used by the School District of Alexandria. This was a Silver Burdett program and a former CEO of the materials? supplier for Silver Burdett advised me the curriculum would have been submitted to the State for approval. I realize ordinary paperwork from that time frame has likely long since been destroyed, but I'm hoping something as significant as a curriculum would have survived. Please direct me accordingly. Copies are preferred, but if other materials exist, I can come in for inspection. Thank you.

DEPARTMENT=Education, DIVISION=All, FROM 8/1/2017 To 11/20/2017, STATUS=All

Under OPRA privileges please email us total private school enrollment in the state of New Jersey by year starting from the 2006-2007 school year through the 2016-2017 school year; grades full day K through 12th and by religious affiliation.

If it is too much work, please narrow it down to the following four school years:

2006-2007
2011-2012
2015-2016
2016-2017

Please note we do not necessarily need the individual grades of each year; we just want the student count of grades full day kindergarten through 12th per year.

Finally, if possible please make the data available on a Google or Microsoft spreadsheet.

I am an attorney at Methfessel & Werbel, P.C. in Edison, NJ and our office represents Obdulia Gonzalez of the Perth Amboy Board of Education, Middlesex County in the matter of School Ethics Commission v. Obdulia Gonzalez, Docket No. T30-16. This matter arises from an Order to Show Cause (?OTSC?) filed by the School Ethics Commission dated April 26, 2017 and allegedly mailed to my client on April 26, 2017. My client contends that she never received the Order to Show Cause and therefore does not have the aforementioned OTSC in her possession. Accordingly, we would like a copy of that OTSC and all related material, including any mail receipts, in the possession of the NJ Department of Education. We have been advised by Mary, the secretary at School Ethics Commission that this OPRA request is necessary in order to obtain a copy of the original OTSC.				
Ms. Gonzalez will be appealing the July 26, 2017 School Ethics Commission Decision and we have been given a deadline to respond by October 10, 2017. Your timely cooperation is appreciated. Please call our office and reference file number 85085 with any questions or concerns.

For my research on New Jersey Interdistrict Public School Choice Program, I've been looking for information about the demographic composition of NJ's choice student population each year since 2010 when the program was first implemented. I'm filing this OPRA request because I couldn't find the NJDOE commissioner's annual reports on the effectiveness of the Interdistrict Public School Choice Program, which I believe is required by law to be published every year (Interdistrict Public School Choice Program Act of 2010 18A:36B-24).
