Hi. I was employed by Tomar Construction on 3/30/15 and performed work at Passaic Valley Sewerage Commission in Newark NJ. On that day, a subcontractor caused an electrical explosion in which I got hurt. It appears that this subcontractor, Advance Mechanical Construction LLC did not have insurance at the time of the accident. I am requesting any information on subcontracting rules and regulations in NJ as it pertains to their insurance obligations and I am also requesting all NJ Dept of Labor violations from 1/3/15 to present with both Advance Mechanical Construction and Tomar Construction. Thank you.

Requested Information

Hi -- I am requesting a certified copy of the most recent New Jersey Boiler Registry. Preferred delivery of this document is either e-mail, or if that is not possible because the document is too large, providing a copy of the document on a CD would be preferred over hard paper copy given the documents is very large. Please contact me at 646-783-0974 if you want to discuss this request. Thanks in advance for assisting on this request.
