Description: My name is Yurika Kato and I am a graduate student at the University of Kansas.

We are conducting research about coastal protections in coastal New Jersey and would like to know how many coastal protections have been built before and after the Hurricane Sandy (2011-2015).

Therefore, we are looking for permit data that indicate this number. - maybe individual permits or other permits of revetment, groin, dune, seawall, boardwalk, bulkhead, etc.

It would be greatly appreciated if you could provide these information. Please let me know if you have any questions.

?Thank you very much.

Sincerely yours,
