..

3.1 Transportation of animals by ACOs

..

NUMBER OF ANIMALS AT THE FACILITY (List of species and numbers)

Species Dogs No. 21 Species _____ No. 0 Addtl? ..

Additional Remarks

Arrived at the complaint location and I met with Butch Youmans (Owners Father). I walked with Mr. Youmans through the store front and observed the primary housings. The primary enclosures had wood shavings used as bedding which was also mixed with the food. The dogs were observed as ingesting the food mixed with shavings. It was also verified that feces were in each of the enclosures. All but one enclosures had excreta indicating that a cleaning routine was not being followed.

The dogs observed do appear active and healthy. I observed no signs of fatigue, stress, and malnutrition. I stated that currently the facility was in violation of NJAC 8:23 A sec 1.6, 1.7, and 1.8. The facility was down graded to a conditional satisfactory and a notice of violation was issued. A reinspection of the facility will occur in 30 days.
