Subject: OPRA request - Permit Applications

Dear Carteret Borough,

This is a request for public records made under OPRA and the common law right of access. I am not required to fill out an official form. Please acknowledge receipt of this message.

Records requested:

Zoning documents related to the use and occupancy status of 3 Hermann Street, Carteret.
Building/Construction permits for 3 Hermann Street over the last 7 years.

Yours faithfully,

RJ

Please use deliver records electronically via email to the below UNIQUE address for all replies to this request:

RESOLUTION OF FINDINGS AND CONCLUSIONS

Application No. ZB-10-012

WHEREAS, by Application No. ZB-10-012 , **LILIANA RUIZ**, owner of the property located at 3 Hermann Street, also known as Lot 16 in Block 41, requests variances for the continuation of existing nonconforming conditions with regard to the maximum size of an accessory structure; the size of an accessory structure in relation to the principal structure on the property; the required minimum distance between the principal structure and an accessory structure; and side yard setback of an accessory structure; in connection with her renovation of the existing masonry garage on the property; and

WHEREAS, a meeting was conducted on **June 22, 2010**; and

WHEREAS, the following members of the Borough of Carteret Board of Adjustment heard the testimony and read the documents submitted:

Chairman Frank James, Jr.
Mr. Harry Heim
Mr. Richard Hrycuna
Mr. Al Montovani
Ms. Amy Naples
Mr. Joe Centra (Alt #1)
Mr. Ron Pusillo (Alt #2)

and

WHEREAS, at said meeting all those who desired to be heard were heard, and the testimony was recorded by the Board of Adjustment of the Borough of Carteret; and

WHEREAS, the testimony was carefully considered and the following findings of fact were made:

FINDINGS OF FACT

1. The applicant is the owner of the property located at 3 Hermann Street, also known as Lot 16 in Block 41 on the Tax Map of the Borough of Carteret.

2. Applicant's lot has 75 feet of frontage on Hermann Street and a lot depth of 100 feet. The property is improved with a 1½ story frame dwelling and a detached masonry garage.

3. The detached garage measures 22 feet in width and 24 feet in depth and is located approximately 13 feet from the dwelling.

4. The property is located in one of the Borough's R-50 zones.

5. Applicant proposes to modify the existing masonry garage for use as a family room for her teenage children. The renovations will create one large room in the structure.

6. The garage currently has electrical service, but no water or plumbing facilities.

7. Applicant requires a variance from the applicable Borough of Carteret Land Development Ordinance which limits the size of the garage to dimensions of 12 feet by 15 feet, and applicant proposes continuation of the existing garage dimensions. Applicant requires a second variance relating to the size of the garage in relation to the dwelling on the property. The Ordinance requires that ground floor area of an accessory structure be 50% or less than the ground floor area of the main structure on the property, and applicant proposes continuation of the existing ground floor of the garage with square footage greater than 50% of the square footage of the ground floor of the dwelling. An additional variance is required because the Ordinance requires a minimum distance of 15 feet between the principal structure and an accessory structure on a property, and applicant proposes continuation of the existing 13 foot separation. Finally, applicant requires a side yard setback variance for the garage, where required is a setback of 4 feet, applicant proposes continuation of the existing 3.1 foot setback.

7. Applicant voluntarily agreed, as a conditions of approval as follows:

a. No plumbing or other water or sewerage improvements will be made to the garage;

b. No kitchen or cooking facilities will be installed in the garage;

- c. The garage will not be utilized as a separate dwelling in addition to the principal dwelling on the property;
- d. No business activity will be conducted in the garage;
- e. Applicant will record a deed restriction in a form satisfactory to the Board Attorney memorializing the conditions set forth in this paragraph.

Based upon the above findings of fact, the Board concludes as follows:

CONCLUSIONS

1. The variance can be granted under the flexible (c)(2) analysis. The benefit to the Borough is the adaptive reuse of the garage and the creation of additional recreational space without increasing the impervious coverage on the property through a conforming addition. The Board perceives no detriment in granting the variance particularly because the lot is oversized. The Board concludes, on balance, that the benefit substantially outweighs any detriment, of which none is seen.

2. The variance can be granted without substantial impairment to the intent and purpose of the Borough of Carteret Zone Plan and Land Development Ordinance. The granting of this variance will not change the character of the neighborhood.

3. The variance can be granted without substantial detriment to the public good. The traditional Municipal Land Use Law goals of light, air and open space will not be substantially compromised by the granting of the variance.

NOW, THEREFORE, BE IT RESOLVED that the application of **LILIANA RUIZ**, for the renovation of an existing detached garage as recreational space, together with variances relating to the size of the garage; the size of the garage relative to the size of the principal dwelling on the property; the minimum separation between the garage and the principal dwelling; and the side

yard setback of the garage; be and the same is hereby granted, subject to the voluntary conditions in paragraph 7.

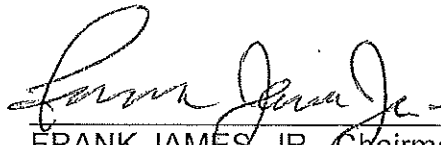

The above is a memorialization of a motion duly made and seconded on **June 22, 2010** on the following vote:
