CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

A. ( ) I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

B. ( )I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

C. ( ) I further certify that I will perform or supervise the following work:
C.1. ( ) Building C.2. ( ) Fire Protection
I further certify that I will perform the following work:
C.3. ( ) Electrical C.4. ( ) Plumbing

D. ( )I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature _____ Date _____

II. AGENT SECTION

(to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

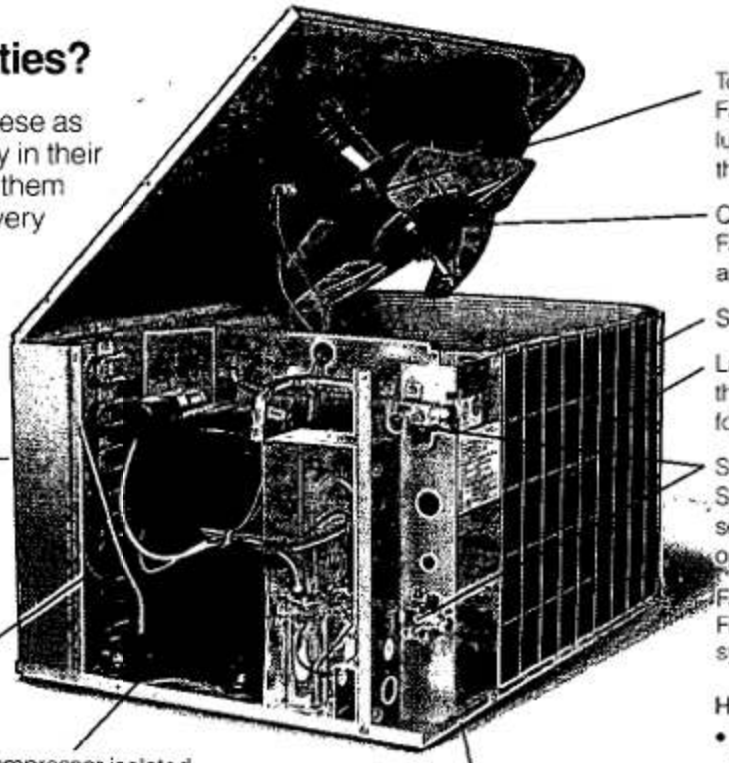
Air Conditioners & Heat Pumps

Features or Necessities?

Most manufacturers refer to these as features and include them only in their most expensive units. We call them necessities and put them in every unit. Because of this devotion to quality we have achieved the lowest failure rate in our industry.



G-90 Galvanized Steel Cabinet with appliance quality, baked on Powder Paint gives durable protection and attractive appearance.

Custom Rifle Bored Copper Tubing increases efficiency.

Whisper-Quiet Compressor isolated from the fan system for extra sound muffling and easier, more precise adjustment and service.

Elevated Base Pan protects the unit from rust.

Totally Enclosed Condenser Fan Motor is permanently lubricated – the best in the business.

Quiet Operating Top Discharge Fan with precision designed and balanced blades.

Safety Grill protects the coil.

Lanced Aluminum Fins are thinner and more numerous for maximum heat dissipation.

Sweat and Forget Brass Service Valves for easy service and leak free operation.

Factory Installed Liquid Line Filter Dryer keeps the refrigerant system clean for longer life.

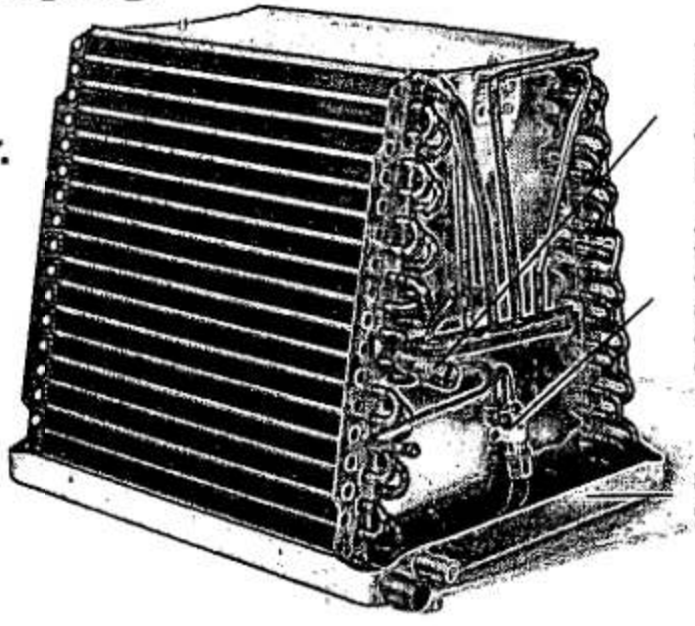
Heat Pump Necessities:

- Bi-Flow liquid line filter dryer
- Muffler
- Suction line accumulator
- Reversing valve energizes on cooling
- Low pressure controls

Evaporator Coils

We make all our own coils, so you get the performance you pay for.

The indoor evaporator coil shares the cooling burden with your system's outdoor condensing unit to keep you cool and dry. An old or mismatched coil can rob you of the performance you expect and need. Our condensing units and evaporator coils are designed and tested together to give you the performance you pay for.



The coils are shipped hermetically sealed with 100 psig pressure. This virtually eliminates the possibility of a leaking coil.

All of our coils have factory installed flowrators which means you get more consistent cooling over a wide range of outdoor temperatures.

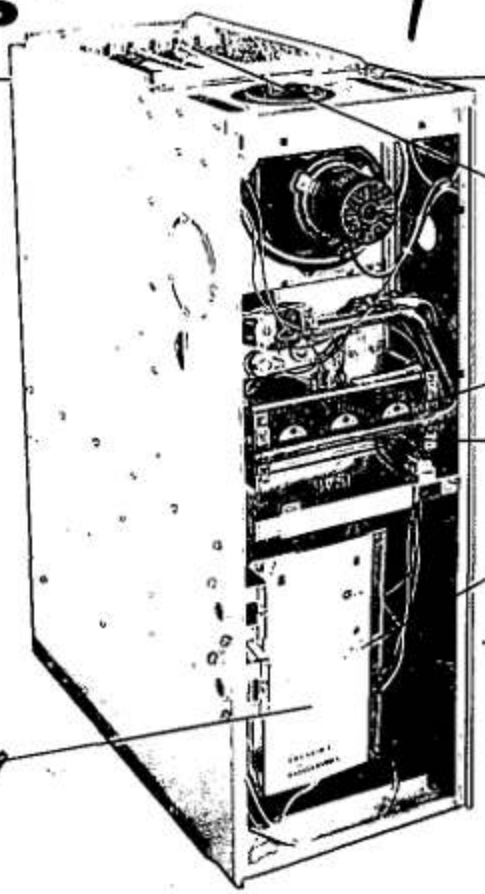
Rust free non-metal drain pan.

Gas Furnaces

75,000 BTU

Quality is assured with our manufacturing process.

Every heat exchanger (the heart of a furnace) is pressure tested for leaks. Every unit is run tested before it leaves the factory.



Lock-Formed, Non-Welded, Aluminized Heat Exchanger for safety and durability. (No welds to rust.)

Inshot Aluminized Steel Burners.

Hot Surface Ignition.

PSC Multi-Speed Direct Drive Blower Motor saves energy and is specifically designed to handle air conditioning

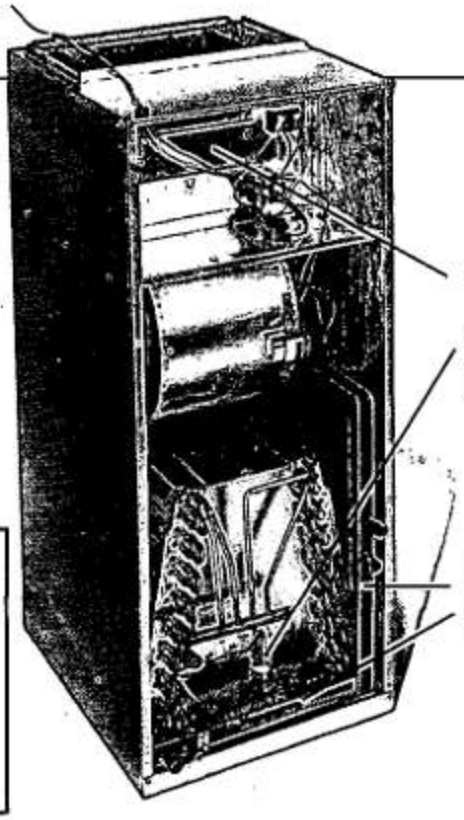
Toggle Lock Cabinets eliminate spot welds which can cause rust.

Conveniently sized to fit utility room, closet, alcove, basement or attic installations.

Smart-Integrated furnace control.

Electric Air Handlers

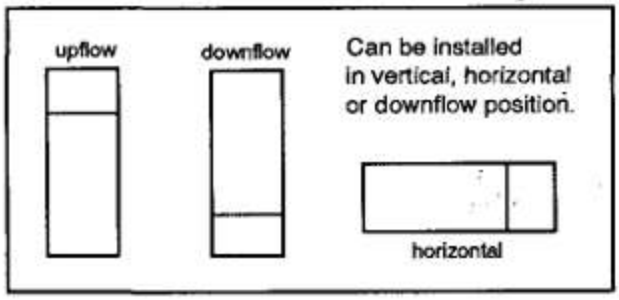
Our air handlers set a new standard for installation simplicity. They use the same basic materials as the furnaces so you'll get the same long life and reliability.



Factory Installed Heat Kits

Factory Installed Check Flowrator for heat pump or straight cooling applications.

Factory Installed rust free vertical and horizontal non-metal drain pans.



Quality makes the difference!

The #1 warranty in the industry

All of our units are designed and manufactured with the same high quality standards regardless of size or efficiency. Our designs are unique because they virtually eliminate the most frequent causes of product failure. They are simple to service and forgiving to operate. We use the highest quality materials and components available because if a part fails then the unit fails. Finally, every unit is run tested before it leaves the factory. That's why we know...

There's No Better Quality.

LIMITED

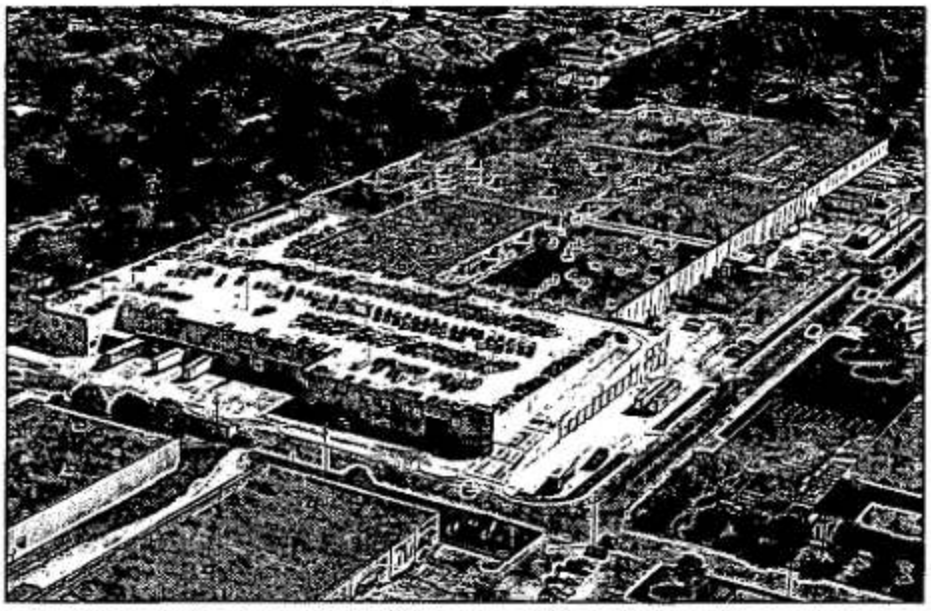
5 Year Warranty

All Parts • All Products

Every part in every unit we make is guaranteed for at least 5 years, subject to the conditions described in the product warranty. Heat exchangers are guaranteed for at least 10 years. This is the strongest warranty in the industry and shows our commitment to deliver you the highest possible quality.

The Industry's fastest growing major manufacturer

Goodman Manufacturing produces a complete line of residential and commercial air conditioning and heating equipment at its modern, high technology factory in Houston, Texas. The equipment is sold through a nationwide network of independent distributors and installers who are dedicated to uphold the company's high standards of quality. The philosophy is simple: Be the highest quality, lowest cost producer of heating and air conditioning equipment in the United States. Is it successful? Goodman's share of market has grown faster than any other major manufacturer. *Quality and Value speak for themselves.*



Goodman... *"The Quality Standard In Air Conditioning & Heating".*

Printed in the U.S.A.
