---------	------	--	------------	-----------------------	-----------	-----------------------	-------	--

On March 21, 2026, at 2:56 pm, I received a call from the owner of a dog that had been in a bite incident last night at 6:15 pm in Roselle Park. This incident happened at 414 Lincoln Ave, Roselle Park. The owner of the dog is Rodger Thomas, 415 Spruce Street Road, Roselle Park. I did not receive a call from the Roselle Park police on this bite incident. Rodger informed me that the pitbull dog he is fostering is 3 years old. The dog did have the name boxer, but was changed to Bowe. He is neutered and is apricot-colored. I stated that the dog needs to be quarantined for 10 days. It will expire on 3/30/26. I explained the rules to him. He sent me a photo of his dog to my phone. He said he understood the rules I gave him. I gave him our email address to send a basic statement on what had happened. I asked for proof that this dog has its rabies shots. I also asked if this dog was registered with the town. He said he didn't know that had to be done because he is fostering this dog. He said he would forward the paperwork to us. Rodger gave me the information on the 2 children who were bitten. Victim 1 is an 11-year-old male. Father's name is Wagner Carrion, 428 Spruce Street. His son has bite marks on his chest and left hand finger. He was taken to the doctors for treatment. I asked Wagner for a basic statement from his son about what had happened and paperwork from the doctors, along with a photo of his son's injury, provided it was not his private parts. He said he would send that to our email address. I then called the second child's parents. That child is also 11 years old. He is a male with injuries to his stomach. The mom is Dana Melici, 414 East Lincoln Ave, Roselle Park. This is the location of the bite incident outside where the dog bite occurred. I asked Dana for a statement on what had happened with her son and the dog. I asked for a photo of his injury, provided it was not his private parts. She said she would send that to our email address. He was treated by a doctor. I asked for paperwork as well. She said she would send that. I then ended this call. I still need to get the first child's address from Mr. Carrion. Officer Karmondi

to me

Ben, thank you.

At approx 614p 3/20 at 414 e Lincoln Ave my son, [REDACTED] was bit by a dog on leash. Video and audio confirm the child (and a friend also bit) asked if he could pet the dog, the owner said yes stated he's a red nosed pitbull and the dog then attacked my son Joseph first and then his friend as per the children. The owner casually walked away did not attempt to assist children and 911 called. Both children went to the er via their parents NOT via ambulance.

Attached which may come
In 2 parts pics and video.

Dana melici (spohr)

to me

Hi Ben,

As per our conversation earlier today, I am providing you the information I have immediately available. If you need anything else please contact me at [REDACTED]

Please find attached the medical history for Bowie regarding the incident from 3/20. You will find Photo from today, his medical history with rabies vaccine history, proof of additional vaccinations as of 1/21/25, proof of neutering from the same date, and Today's vet appointment paperwork indicating no sign of rabies.

** See expired / updated rabies vax, medical history, spay / neuter paperwork in file section, Admin Assistant Tozzi **

Rod Thomas Mon, Mar 30, 11:05 AM (2 days ago) to me Thank you for your time and patience regarding me sending you this email. Bowie has been in quarantine for 9 days now, he has exhibited no signs of rabies, before or since the incident in question. We have taken him to a veterinarian to confirm that he exhibits no sign of rabies. As a statement of the facts of the incident it occurred as follows: I was walking him on the way back home during his normal walk time and he was behaving normally. He had just met a 5 year old girl who was walking with her father and as usual, he was friendly and gentle. When the young boys asked if they could meet him as well, I expected the same. I told him to sit down which he immediately complied and showed no signs of aggression or discomfort. I had him on a short leash as usual. When the young boys approached to say hi he suddenly jumped at both of them. To be clear, he had never done that before. I immediately pulled him off, but he had knocked them down. I did not even realize he broke any skin since the incident felt so quick. I immediately took Bowie home and secured him in his crate. I then went back to knock on the home I thought the boys lived in and no answer. I was contacted by a neighbor later during the evening who told me how to contact one of the boy's parents and I immediately tried to do so but received no answer. Since this is new behavior for him, we have hired a behaviorist and trainer to see if we can figure out what could have caused this aberrant behavior.

Bowie Thomas Incident 3/20/26 External Inbox Rod Thomas Mon, Mar 30, 5:44 PM (2 days ago) to me, Brooke, Rod Hi Ben, Thanks so much for your call today. We are confirming our understanding from the call that as of now, March 30, 2026 at 5:30 pm, Bowie is no longer under quarantine and								

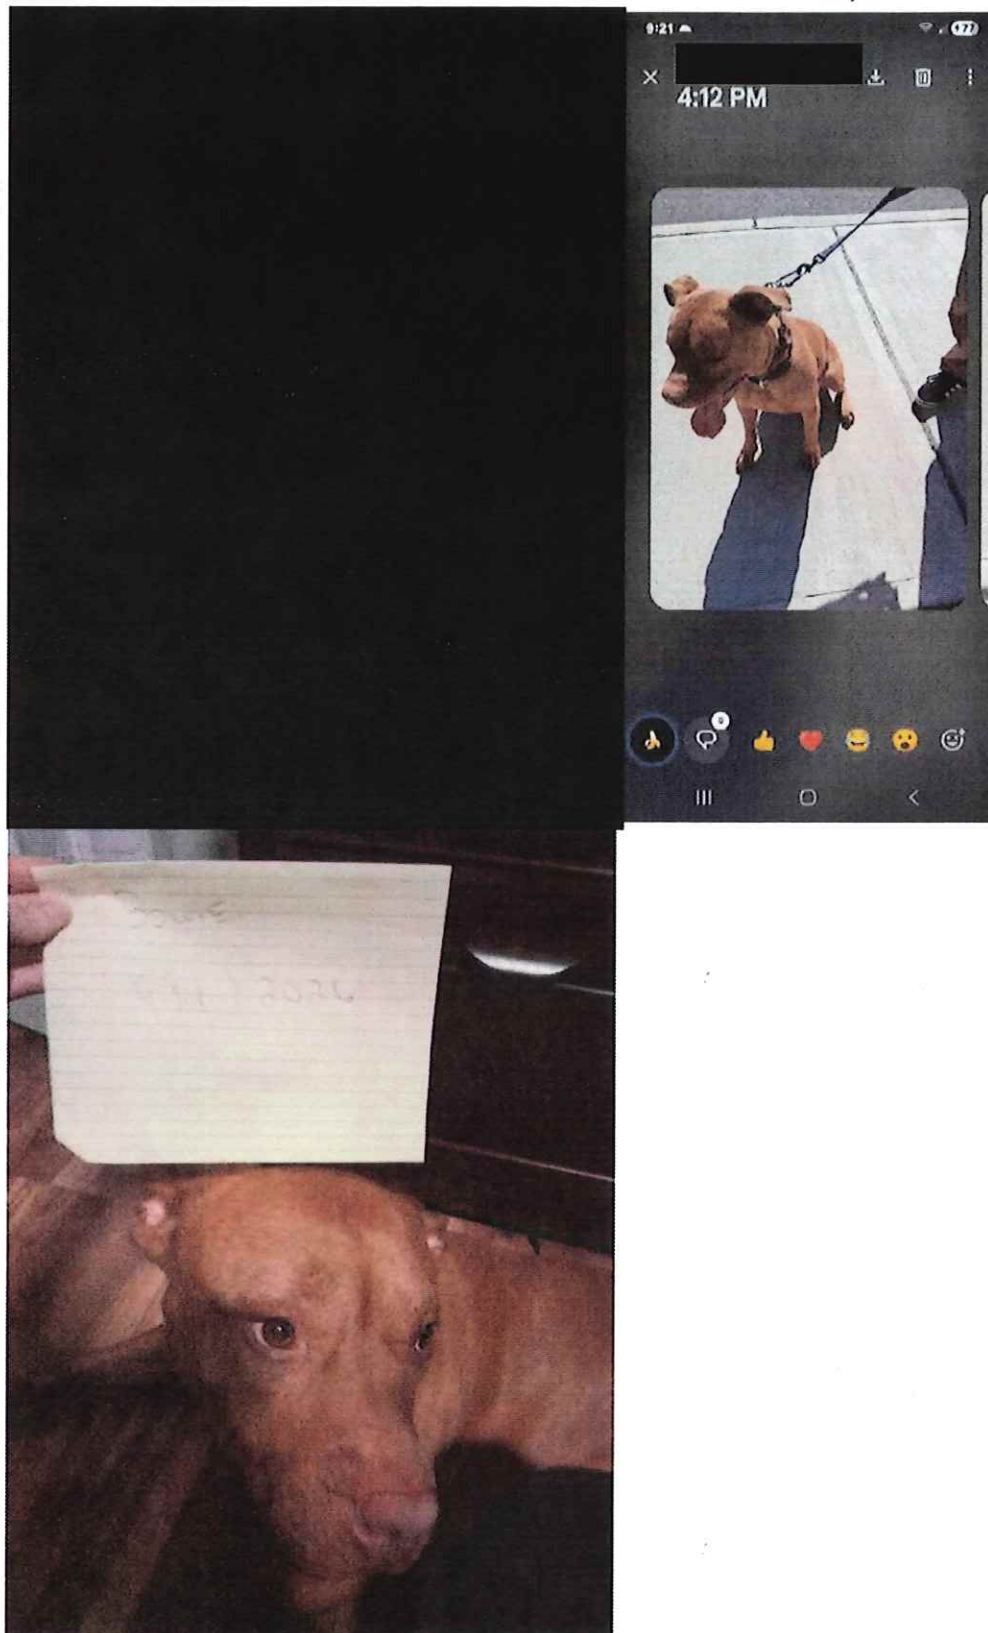

that you are finished with the investigation.
Included in this email are the 2 photos of Bowie you requested. We will proceed as normal with his walks outside of the house.
Of course if you need anything else, please do let us know.
Thank you so much for assistance and quick response time.

Sincerely,
Rodger Thomas and Brooke Stoltz

Incident Report

On the date of 3/20/2026 at approximately 18:21 hours Ptl. Centeno, Ptl. Erazo, and I were dispatched to an animal incident at 414 E Lincoln Avenue.

Upon arrival we met with the two juvenile victims, [REDACTED] and [REDACTED] [REDACTED] began to explain that him and Josh saw an unknown male walking his dog and asked him if they can pet it. As they were petting the dog [REDACTED] tripped over himself and fell on the ground. The dog then suddenly became agitated and bit [REDACTED] on the left side chest bearing teeth marks and the right ring finger bearing a small cut. [REDACTED] also was bitten on the abdominal area bearing 2 minor puncture wounds with spotted bleeding. After the kids were bitten the unknown male and the dog then walked away southbound down Sheridan Avenue.

While on scene we spoke to [REDACTED]'s mother, Dana Spohr. Mrs. Spohr watched Ring Camera Footage from her doorbell obtaining a description of the male and the dog. The subject is described as a white male wearing a red hat, black jacket and tan pants. The dog is described as a brown Red Nose Pit bull. However, the video does not show the full interaction and only what happen before and after the incident occurred.

[REDACTED]'s dad, Wagner Carrion-Moscoso, was advised of the incident via phone and relinquished custody of [REDACTED] momentarily to Mrs. Spohr due to him being out town. Mrs. Spohr and Mr. Carrion-Moscoso refused BLS transportation as they stated they would take [REDACTED] and [REDACTED] to the hospital for further treatment later in the evening.

Ptl. Erazo and I then canvassed the area for additional cameras along the 400 block of Sheridan Avenue. It should be noted that after speaking with multiple residents, their cameras were unable to capture the male and dog in question.

At approximately 13:00 Hours on 3/21/2026 the owner of the dog later identified as Thomas, Rodger responded to headquarters providing us with vaccination paper work for his dog. Vaccination paper work has been secured in case file.

BWC footage retained.
